The Battalion Multi-Touch CZ-10 is iBUYPOWER's strategic card for the next generation of touch-enabled games coming soon, especially the RTS genre like Ubisoft's RUSE .

iBUYPOWER has just announced the world's first gaming laptop line with the Battalion Touch CZ-10 Multi-Touch multi-touch screen.

The main advantage of the CZ-10 is that the 15.6-inch screen supports multi-touch technology (similar to the iPhone) that supports a resolution of 1366 * 768. Besides, the CZ_10 is also equipped with Intel Core 2 Duo P8700 2 * 2.53GHz processor, ATI Radeon Mobility HD 4650 512MB GDDR3 graphics card, 2GB DDR3, 250GB hard drive, 6-cell battery.

In addition, users have the option of adding extended upgrades such as Blu-ray drive, 8GB DDR3, 500GB hard drive, gamer-specific accessories. The device is preinstalled with Windows 7 Ultimate operating system.

The Battalion Multi-Touch CZ-10 is iBUYPOWER's strategic card for the next generation of touch-enabled gaming games, especially the RTS genre like Ubisoft's RUSE.

Expected Battalion Multi-Touch CZ-10 will be sold for 999 USD (converted into about 20 million VND) from January 22.
