QuanTriMang.com - Recently, Microsoft has officially offered courses and training for everyone so users can better understand and better understand their products. These courses are presented and taught online, all compiled and performed by professionals. You will save a lot of time compared to the normal way of studying if you are difficult to research and acquire technology.

The highlight of this type of learning model is that you can participate at any time, the interface and layout is simple. Users only need to select the appropriate course accordingly, enter the 'shopping cart' and continue to refer to the other courses. In order, each different course will require you to download the add-on for the browser and restart the computer after installation.

Below we list some basic and necessary learning programs:
