

# Before 'returning to Thanos', what was the fate and appearance of Nebula in the comics?

What is the history of Nebula comics? How was she raised and taught by Thanos?

In the Marvel Cinematic Universe, Nebula is a character with a deep storyline - a person who walks from the shadows of evil, through empathy that has sided with the righteous side in order to defeat his father. Thanos his. Despite being a child, Nebula was brutally treated, and even her father transformed her body to become a mighty warrior like her sister Gamora.

However, in the comics Nebula has a past like? How was she raised and taught by Thanos?

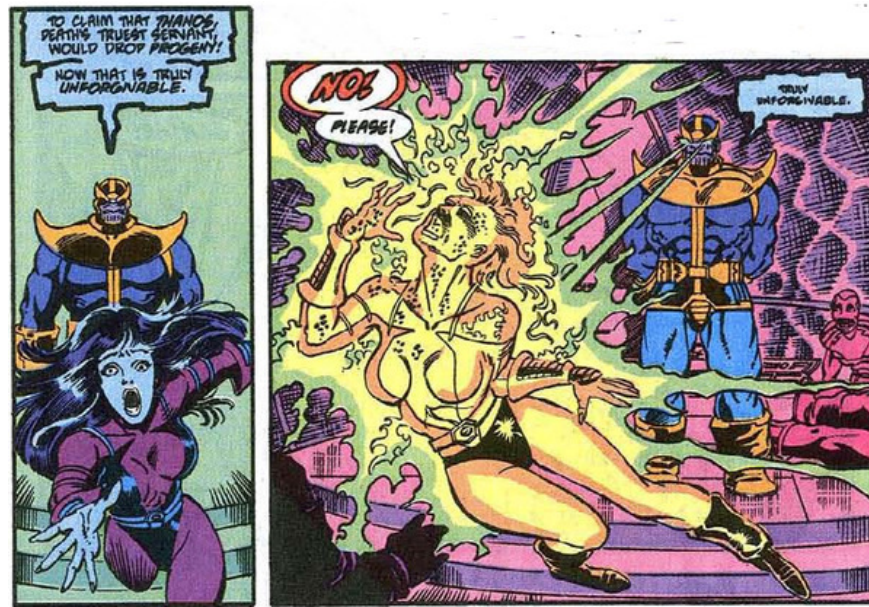

Unlike the MCU, Nebula appears with a different appearance - long hair, wearing a purple outfit like in the Silver Surfer manga series No. 38.

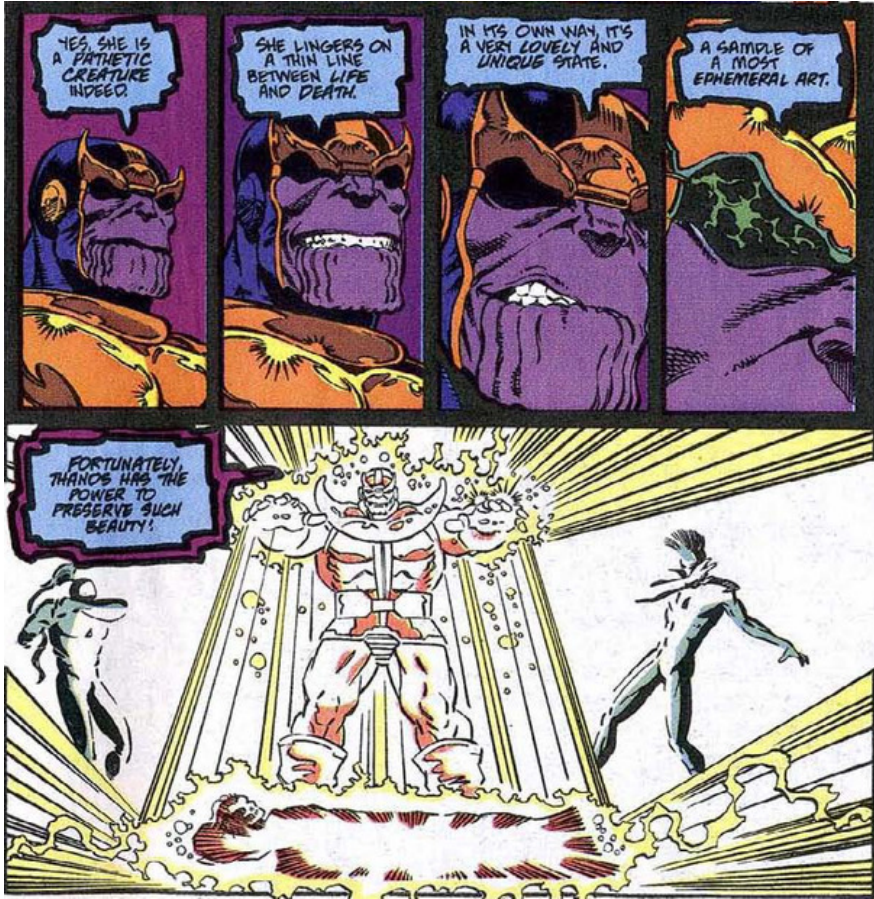

CAN YOU  
IDENTIFY THE  
NATURE OF THIS  
ACTIVITY?

However, when Thanos revived, he dealt with Nebula herself with his own eyes.

After having enough of the infinity stones, Thanos argues that Nebula needs to be in the middle of the line between death and life - a situation that he thinks is "unique" and "adorable" - as an example of the relive.

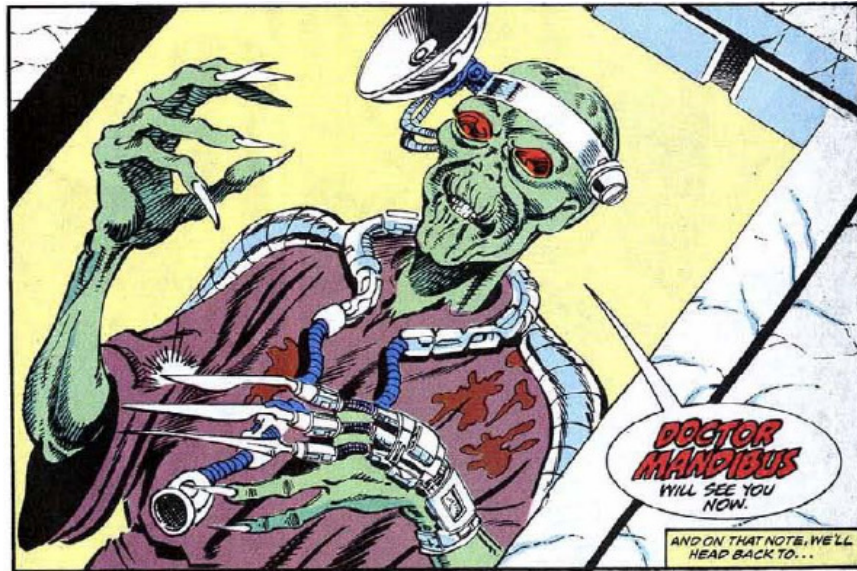

"YOU WILL LIVEN WHEN ALLOWING TO ALLOW"

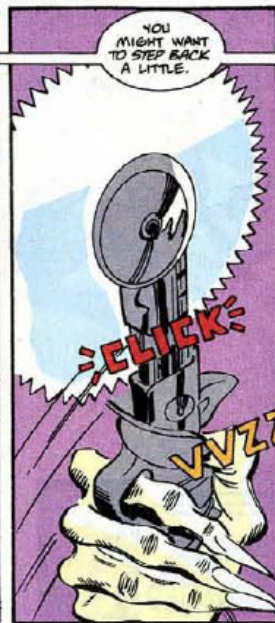

Later, thanks to the Gauntlet series, she returned to her original form, but she was heavily affected psychologically as in the Silver Surfer series 66

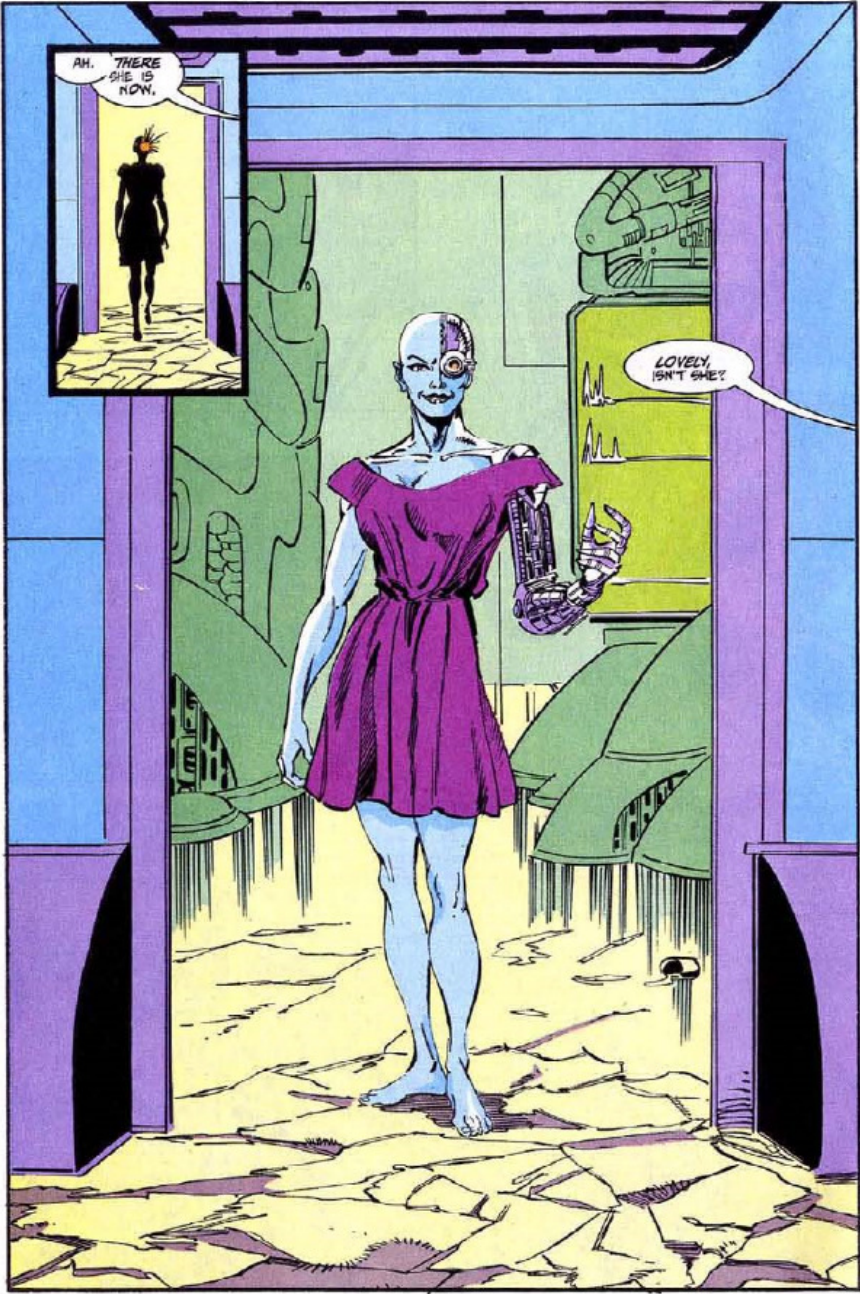

"Can Nebula return to normal?"

It was thanks to Nebula's lieutenant who led her to Doctor Mandibus that she was able to get the look we are familiar with in the Marvel movie universe.

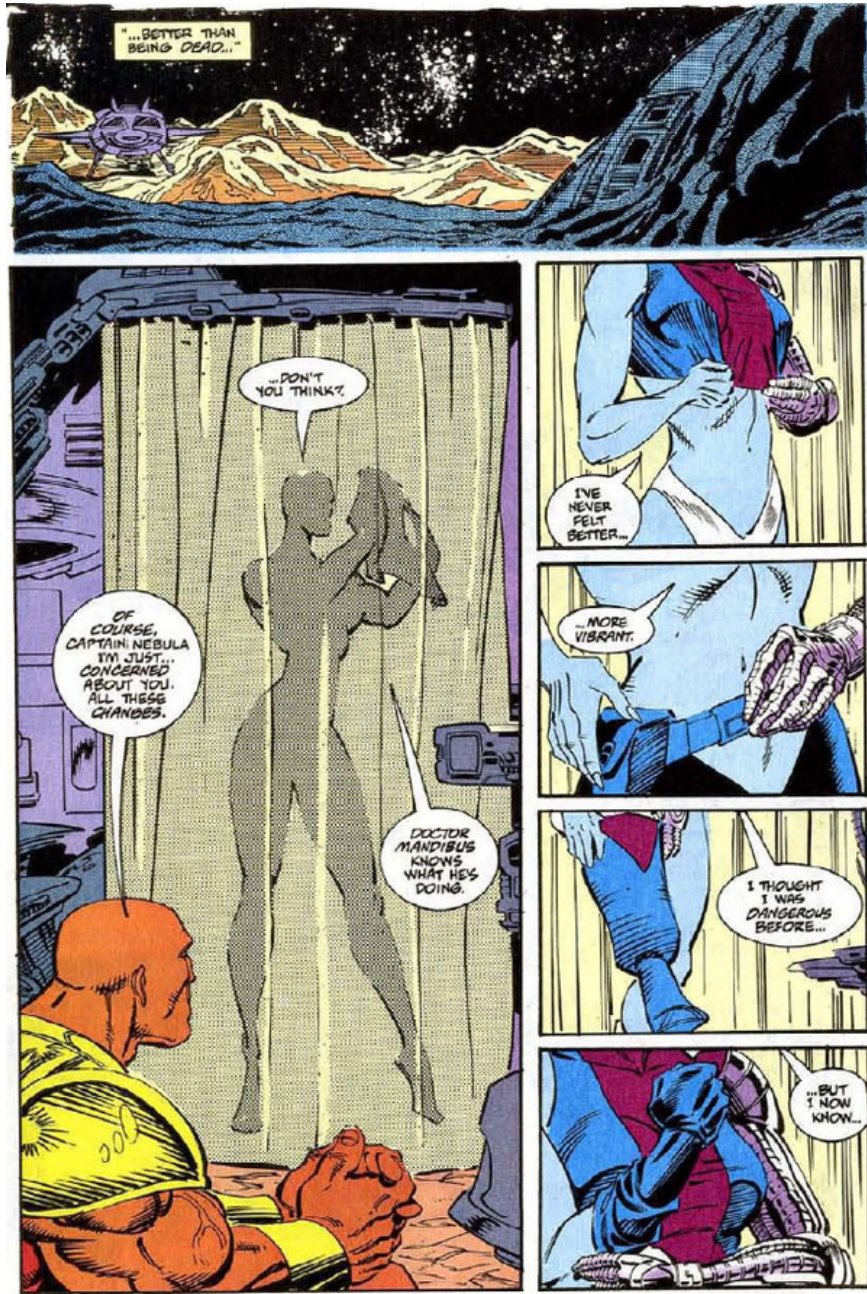

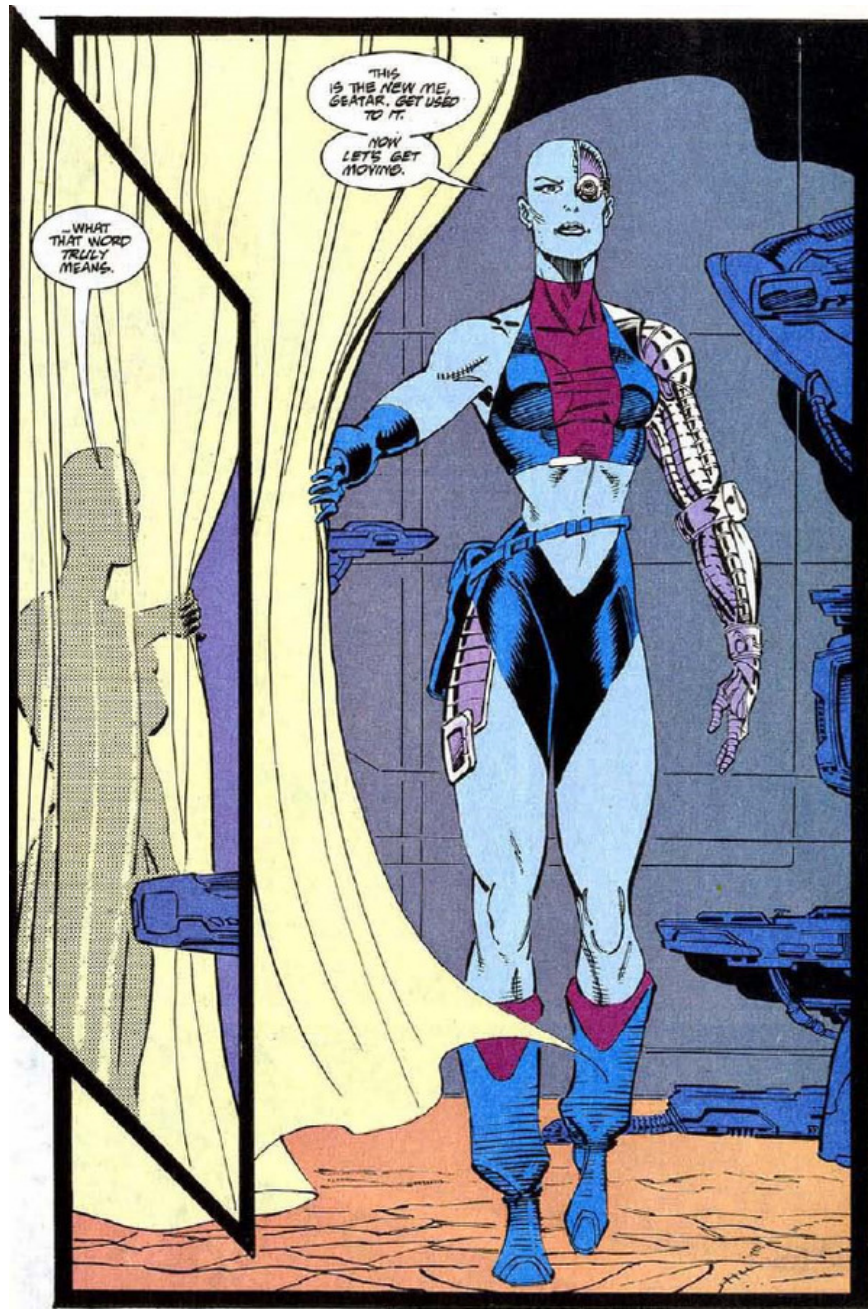

AH, THERE SHE IS NOW.

LOVELY, ISN'T SHE?

A little change of clothes in episode 73 of Silver Surfer .

. and we can feel inspired to create the character Nebula in the Marvel cinematic universe
