

# BlackBerry Passport is set to debut on September 24

After the incubation day, BlackBerry finally fixed September 24, which will be the day of the Passport launch. Canadian mobile carrier will hold three events on this day at three different locations: Toronto (Canada), London (United Kingdom), and Dubai (UAE), event invitations to media outlets.

**After the incubation day, BlackBerry finally fixed September 24, which will be the day of the Passport launch. Canadian mobile carrier will hold three events on this day at three different locations: Toronto (Canada), London (United Kingdom), and Dubai (UAE), event invitations to media outlets.**

It is not clear if three or three events at these three locations will take place at the same time because BlackBerry has not announced the start of the three events. Passport has a lot of special features, "Black Strawberry" hopes that it will attract its loyal fans.

**Passport** specifications were leaked a few weeks ago. It has a 4.5-inch LCD screen with a resolution of 1440x1440 pixels protected by Gorilla Glass toughened glass 3. The Passport processor is a Snapdragon 800 with four processor speeds of 2.2GHz, 3GB of RAM. The storage capacity of this square-screen smartphone is 32GB, which can be expanded via microSD card slot.

The back of the **Passport** has a 13MP camera with optical image stabilization (*OIS*), 2MP front camera. On the connection side, Passport supports LTE, HSPA +, WiFi 802.11ac, Bluetooth 4.0, GPS and NFC. Passport battery packs have a capacity of 3450mAh. The device has dimensions of 128 x 90.3 x 9.3 mm, weighing 194.4 g.
