There are not many people who believe and predictions about the future from the prophet Vanga, they even claim that it is superstition. But after the predictions of disasters turned out to be 70%, people couldn't help but be afraid of our own future.

The life of the blind prophet Vanga

Prophet Vanga whose real name is **Vangelia Pandeva Dimitrova** , after she married, changed her name to Vangelia Gushterova. Vanga was born in Strumica, now in the Republic of Macedonia. As a child, Vanga was a perfectly normal girl. When she was 12 years old, a storm swept her to a far field. When people found her eyes covered with dust and sand, she could not open them. Because the family did not have enough money to heal, her eyes were blinded.

When Vanga was 16 years old, she began to have the ability to " *see the future* ". That year, she described exactly where her father's sheep was held by the thief. The female prophet said that **the glowing ghost** appeared a few nights, she constantly dreamed of having a **superhuman character come** to see her and give her noble mission.

The rumors of Vanga, the fast-paced prophetess in the city, people began to flock to her home. Including **King Boris III** of Bulgaria, **Adolf Hitler** fascist. She had anticipated the deaths of family members: her brother,

husband and herself.

Shortly before her death, she said there was a 10-year-old blonde girl living in France who would inherit her rich abilities. And in 2009, Vanga's successor, a girl full of features like Vanga was discovered. According to the description, the baby is called **Kaede Uber** , born in the city of Montpellier in the south of France.

Famous predictions are associated with the name of Mrs. Vanga

It seems that this prophecy was fulfilled with the **World Trade Center (New York) twin towers** collapsed by the September 11, 2001 terrorist attack.

However, it takes a long time. when the number 8 appears and there are signs about the Earth* ". In fact, Russia became a great power and joined the G7 to turn it into a G8. And now Russia has an important role in the process of preserving world peace.

5. Migration crisis in Europe

" *A lot of people suffer. Misfortune will come from everywhere, touch all the nations . People will go barefoot, no shoes, no clothes, no fuel, no light .* ".

Vanga's prediction made people think of **the biggest migration crisis that has been taking place in Europe** for decades.

6. The growing resurgence of IS rebels

In 1978, the prophet predicted: " *It will be a time of tribulation. People will divide according to religious characteristics . Syria will collapse at the foot of the victor, but the victor will be the one unworthy.*". Is this a prediction for the emergence of the Islamic State (IS) force?
