

Block strangers to contact you on Facebook

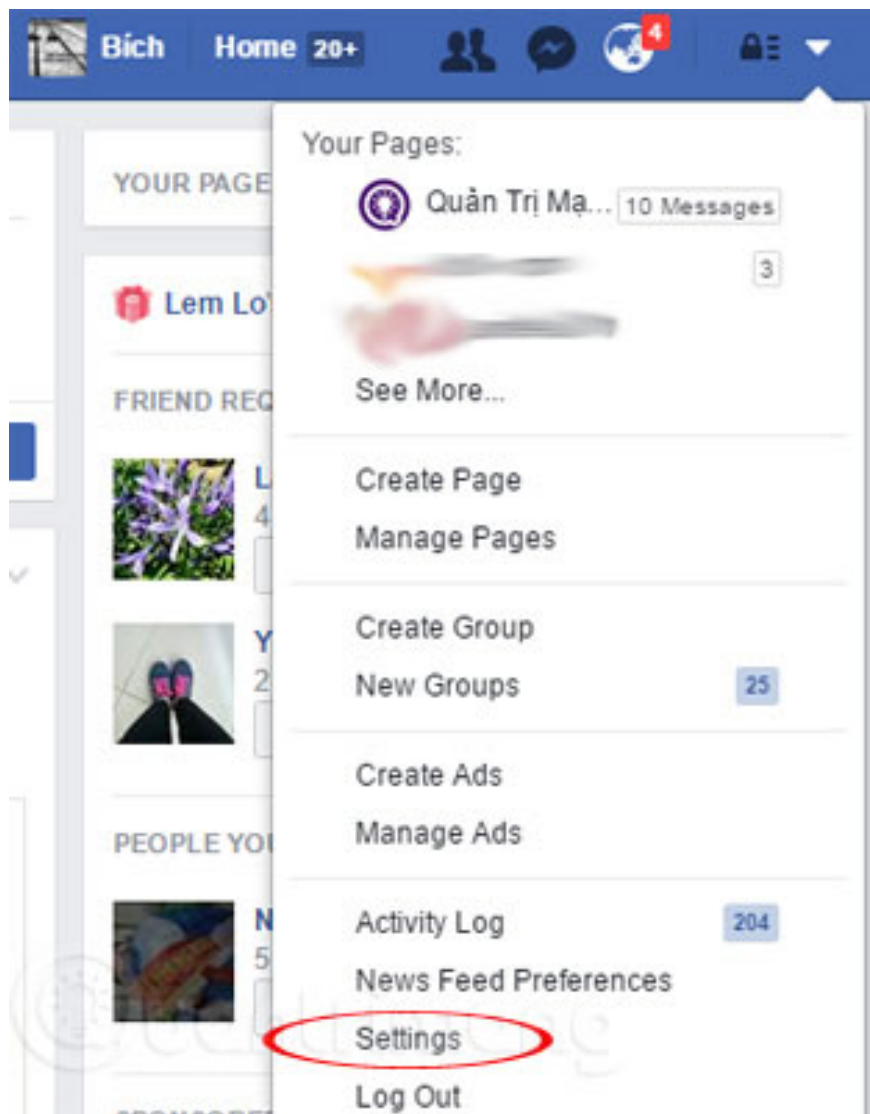

Facebook is where we share our feelings, memories, photos with friends and family. Unfortunately, spammers are always trying to get useful information, send messages and suggest making friends to all of us to advertise or scam. Even worse, hateful people can make friends with you just because you think you're lonely.

Facebook is where we share our feelings, memories, photos with friends and family. Unfortunately, spammers are always trying to get useful information, send messages and suggest making friends to all of us to advertise or scam. Even worse, hateful people can make friends with you just because you think you're lonely.

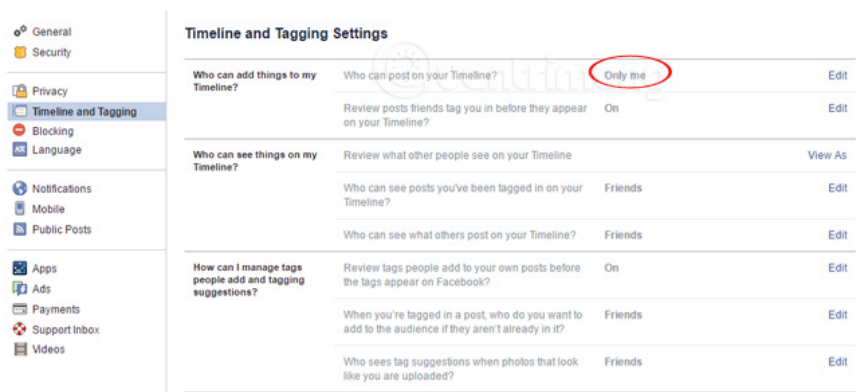

To avoid receiving messages or friend suggestions from people you don't know, simply adjust some personal settings on Facebook. This will help those who have received too many offers to get out of trouble and will ensure that you do not accidentally agree to make friends with a stranger.

Set up to not be bothered by strangers on Facebook

Step 1: Log in to **Facebook** and point the arrow on the menu bar to the top right corner , then select **Settings** .

Step 2: Select Timeline and Tagging, click on editing options and drop-down menu boxes to select the level of privacy you desire.

Tip: Never leave **Everyone / Everyone** at any option! You should only choose to let Friends see, view articles, information, tags and things you share. If you don't want to be posted miscellaneous links on your account, you should choose **Only Me** in "Who can post on your Timeline?" .

Blocking nick Facebook annoys you

Not only strangers, someone you know is deliberately bothering you, or their Facebook nick is captured by others and constantly spamming you, it's time to block that Facebook nick.

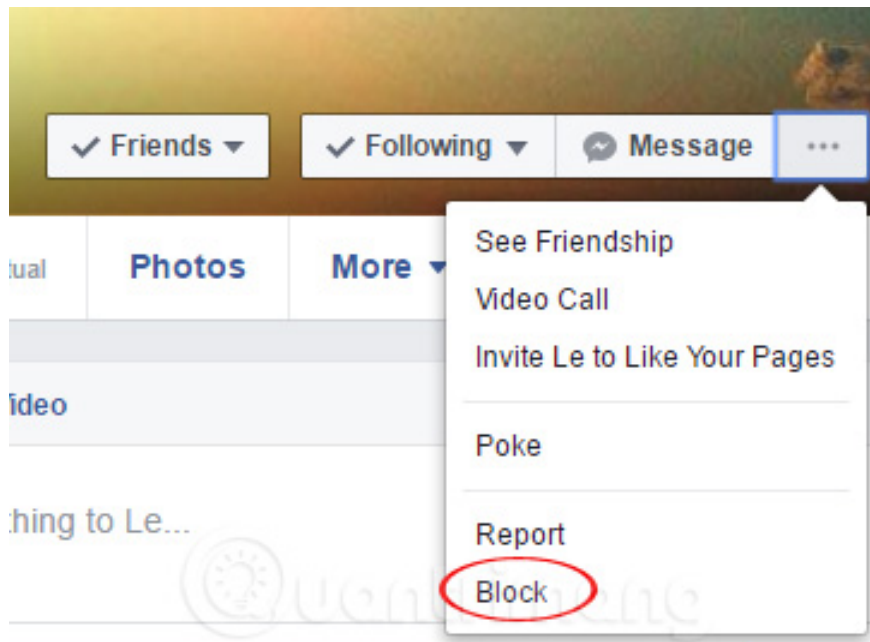

Note when blocking someone's Facebook, they:

1. Can't see your post or access your profile
2. Can't see your profile in search
3. Can't message you with Facebook Messenger
4. Can't add friends
5. Could not tag you, invite you to an event or interact with you

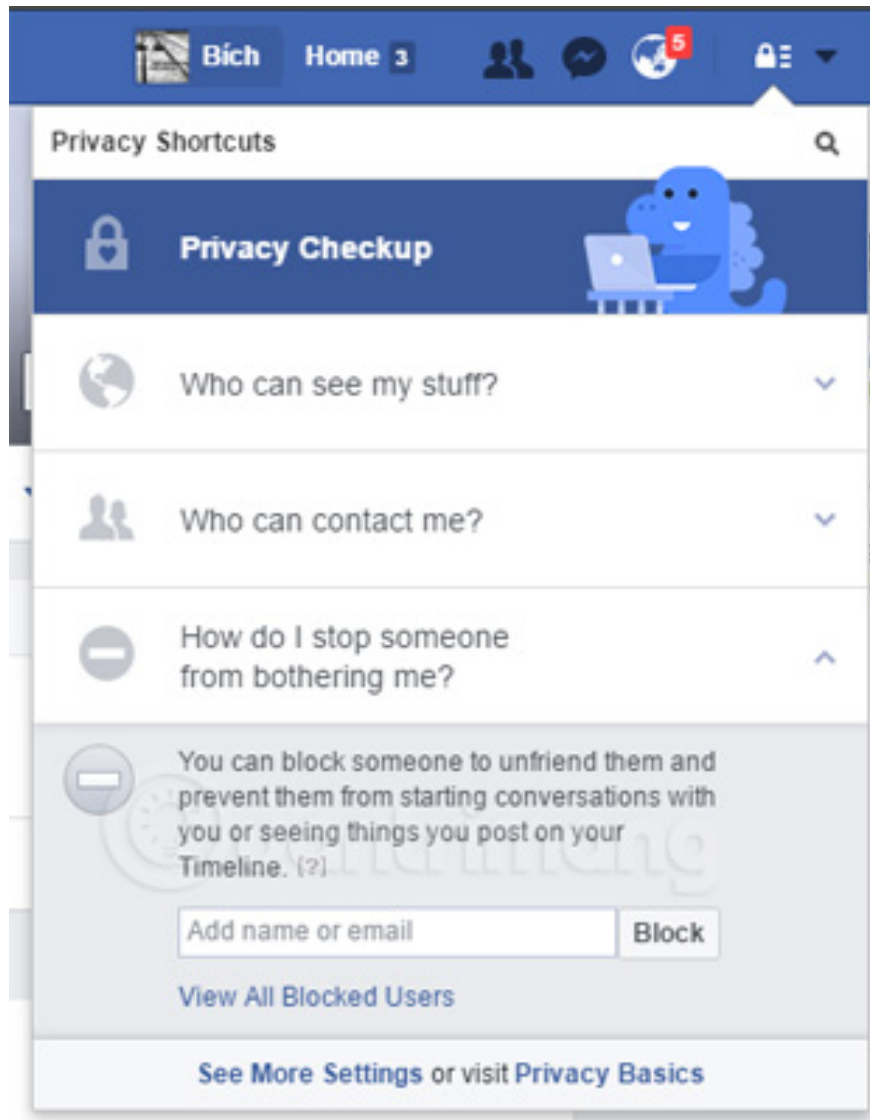

And you will automatically unfriend or unfollow them as well as not be able to do these things with them.

Block Facebook account on computer

Log in to Facebook with a browser on your computer, go to the Facebook page of the account you want to block, click on . in the right corner, select **Block**> **Confirm** .

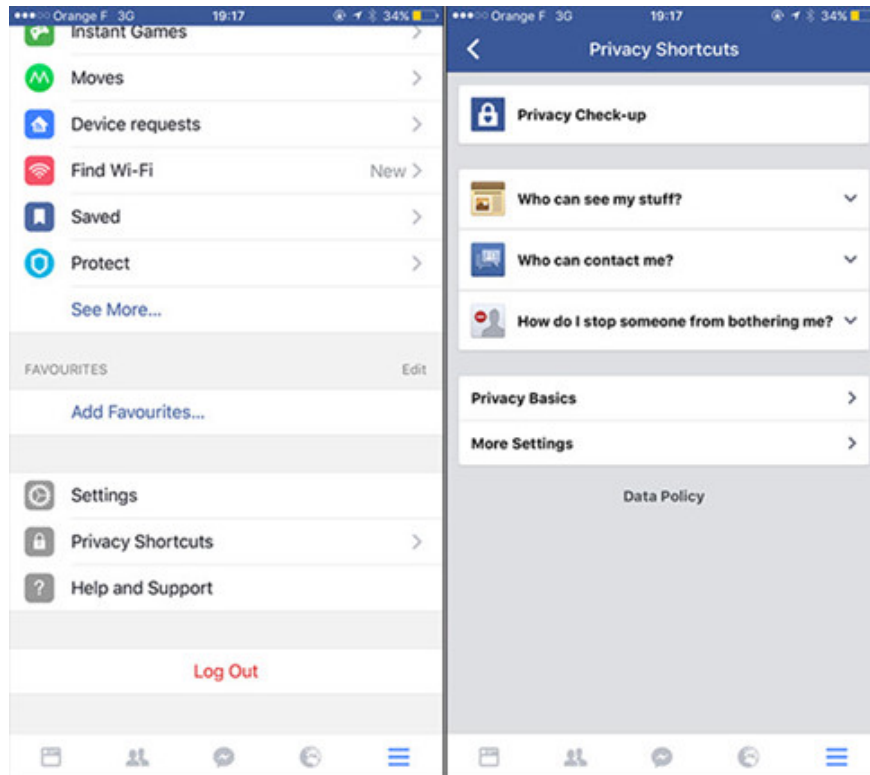

Or click on the lock icon in the upper right corner, choose *How Do I Stop Someone Bothering Me?* . Now enter their name or email, then click **Block** . A list of corresponding user names will appear, click **Block** next to the correct name.

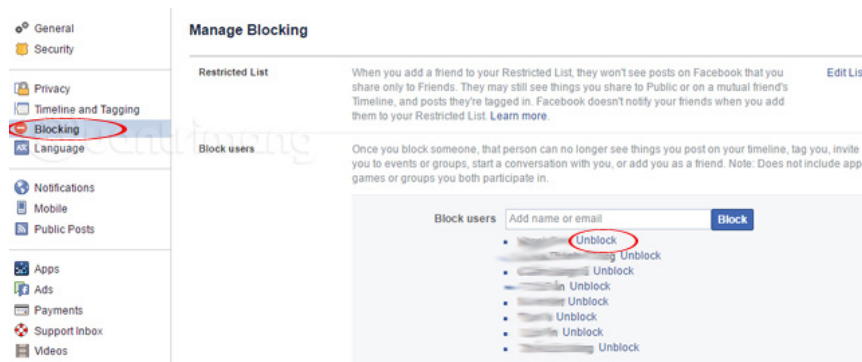

Block nick Facebook on phone

The process of blocking Facebook on your phone is also done similarly on your computer. That is, you can go directly to the personal page of the person to block, click on the . (vertical), select Block / Block. Or on the Facebook app home page, scroll down until you see the lock icon (**Privacy Shortcuts / Privacy Shortcuts**), click on *How Do I Stop Someone Bothering Me? / How to stop someone bother me?* Enter the name of the person to block, select the person to block in the list that appears, confirm to complete.

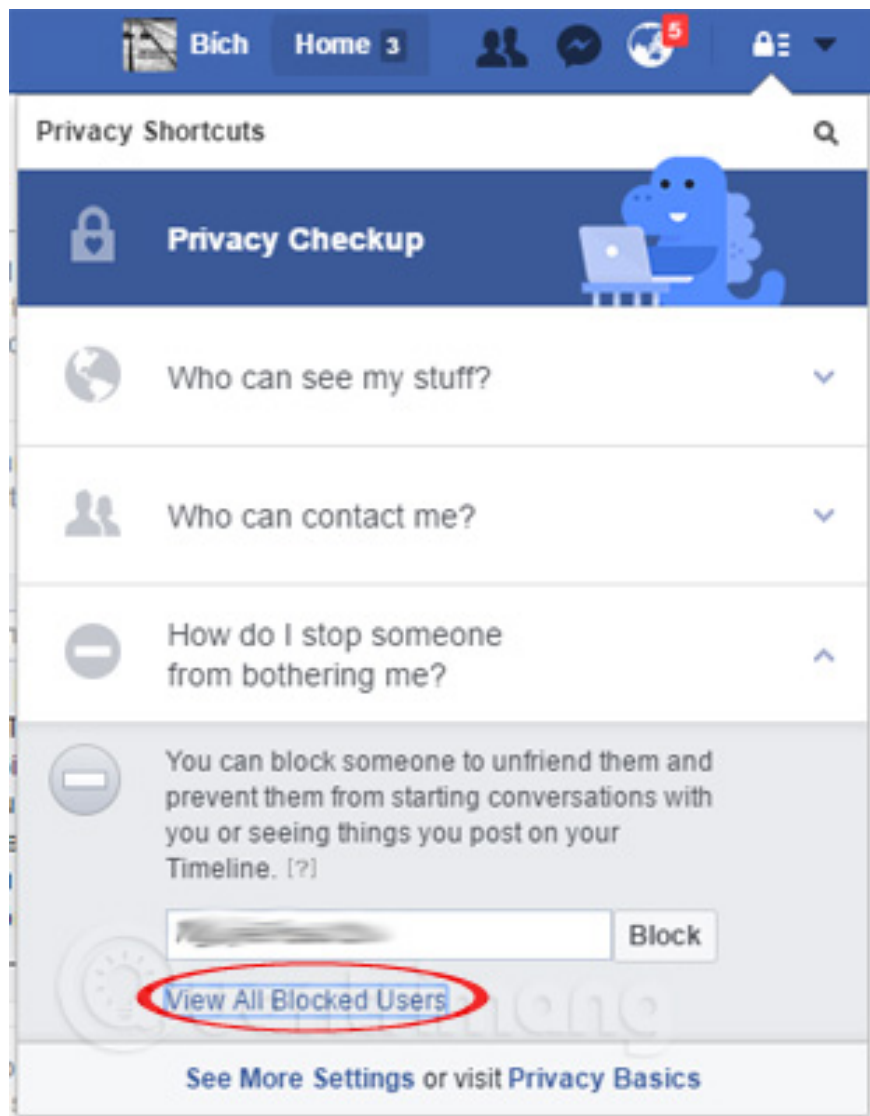

Unblock Facebook nick

To unblock someone, on your computer, just go to **Settings > Blocking**, then find the person you want to unblock so that everything is back to normal.

Or you can click **View All Blocked Users** when clicking the lock icon in the upper right corner to view and unblock.

Similarly, on the phone, you also go to the lock icon, find out how to **stop me from bothering me?** > **View All Blocked Users** > Select who wants to unblock and confirm it.

From now on you will no longer have to receive suggestions or messages from strangers anymore. If you later change and want to be more open on Facebook, you can always adjust the settings and allow people to contact you.
