

Break into the \$ 7 million mansion of Jake Paul, the brightest star of Youtube channel

Only 20 years old, Jake Paul is the brightest star of YouTube channel when he owns 11 million followers and each clip attracts several million views. Recently, this madman bought a \$ 6.9 million villa for himself and a group of 10 people.

Although only 20 years old, but Jake Paul is making the social network community disturbing and excited by the video clips uploaded on Youtube by him and his friends.

Jake Paul is considered by many to be a shining star of Youtube channel, because Paul's YouTube account now has more than 11 million followers. The products that are posted on Youtube are produced by a team of 10 members, including 9 men and 1 female under Paul's command. The products they make are mainly rap clips, mischievous and destructive clips, "intentional", each clip has attracted several million views.

The pervasive power of Jake Paul's account was thanks to the crazy performances and only Jake Paul and Team 10 could think of, like throwing all the furniture in the pool, burning them; Try to use a tennis racket to hit a piece of jelly, throw chicken eggs in a drone, . All Jake Paul brings is the crazy game, the experiment is full of excitement.

Previously Paul and his friends stayed in Beverly Grove high-class housing in Los Angeles (USA), emerging as a modern white apartment with a rent of up to \$ 17,000 per year. This is the context for him to make his videos. However, with his mischief, he made those neighbors feel uncomfortable, they shared that "This neighborhood used to be very peaceful but now is no different from a war zone. We are very pleased with the presence of these famous young people here, if they know how to respect the lives of others. 'So he decided to move to a new home when the old neighbors tried to Trying to "kill" him in July.

1. Fascinated watching the gap of billionaire Jack Ma
2. Admire the 25 most colorful streets in the world

This is a villa with a price of 6.9 million USD and this is all inside this 15,000 square meter villa, let's admire it:

The villa is located on a total area of 14,164 square meters.

The scenery outside of the mansion.

Built in 1990, the house has rooms with huge ceilings

In the backyard is a swimming pool with great views

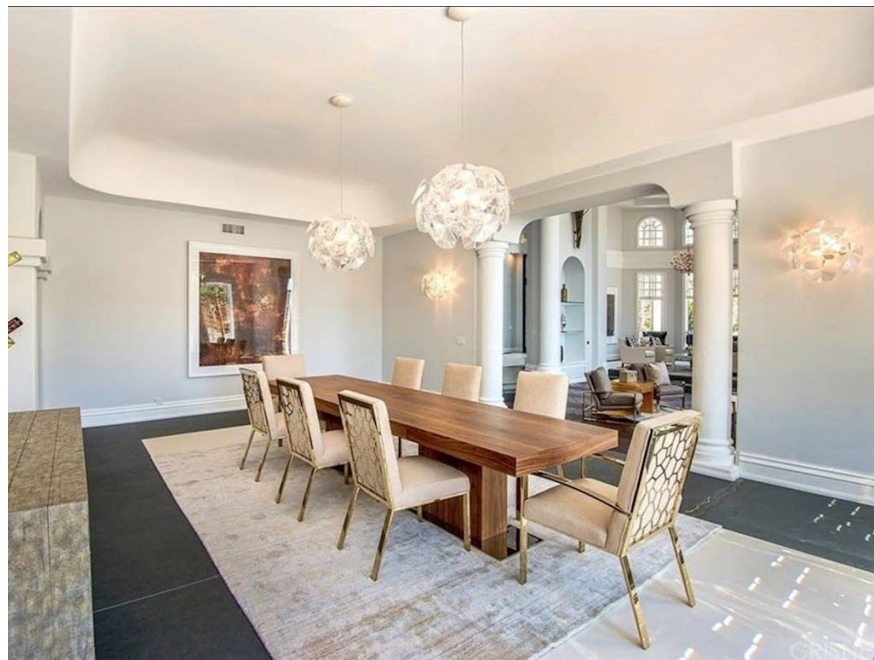

From the entrance leads to a spiral staircase up to the 3rd floor

While the house was designed based on the idea for a family, in a recent video Paul said he would share it with his friends in "group 10", as well as a management company for his own media characters.

In the common area of ??the family, lots of accommodation for members .

. and including a home cinema

The kitchen area has a total of 4 ovens, a coffee machine as well as a wine cabinet that can control the temperature.

All have 8 large bedrooms

Comes with a high-class bathroom with a shower that creates a scent

The bathrooms are luxuriously designed, no less than 5-star hotels.

A storage room is still empty

Hopefully, Paul and his friends will have enough room to play, avoiding disturbing their new neighbors.
