

Build a professional website with Weebly

You want to build your own website to organize events, share experiences ... but you're not a 'specialized' person or don't know where to start? ...

QuanTriMang.com - You want to build your own website to organize events, share experiences . but you're not a 'specialized' person or don't know where to start?

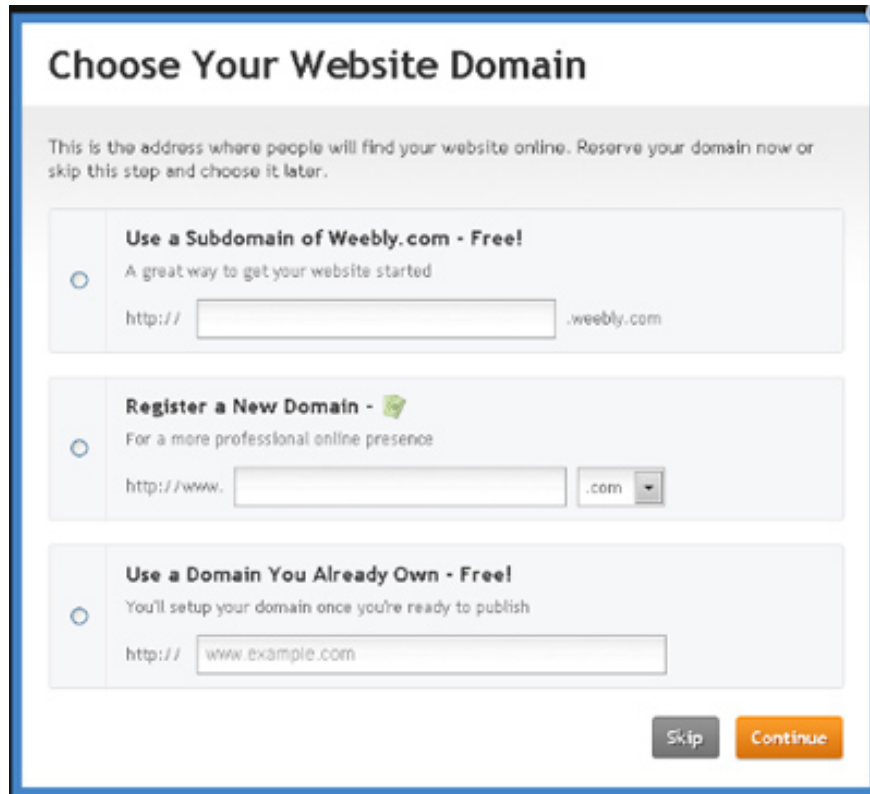

Currently on the market there are also many free website building service providers for amateurs, and today we will introduce you to Weebly's service and the most basic steps when embark on making website.

Supporting drag and drop features is one of Weebly's strengths, making it easy for users to build a relatively fast and simple website. Let's start with simple patterns, then add the corresponding support components one after another.

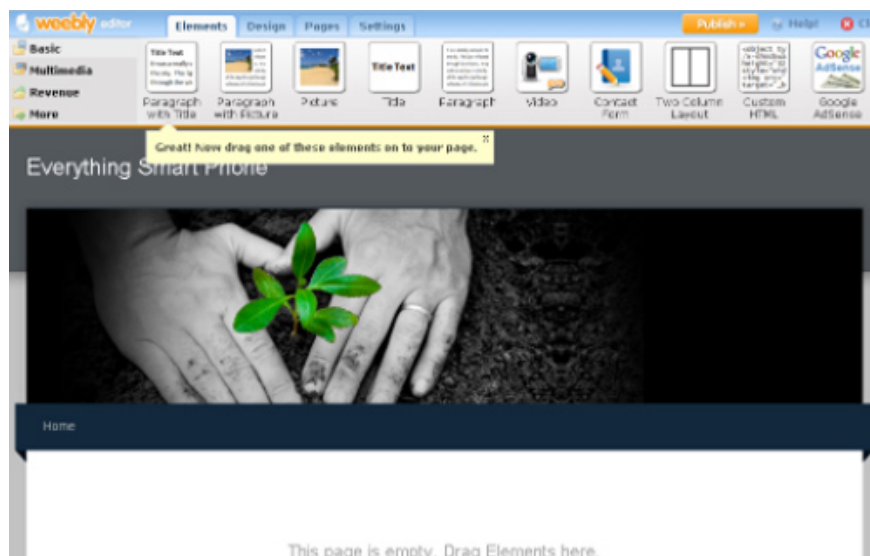

Weebly host options

When using this service of Weebly, you will have a domain with **username.weebly.com** or your own domain name:

Weebly's website building feature

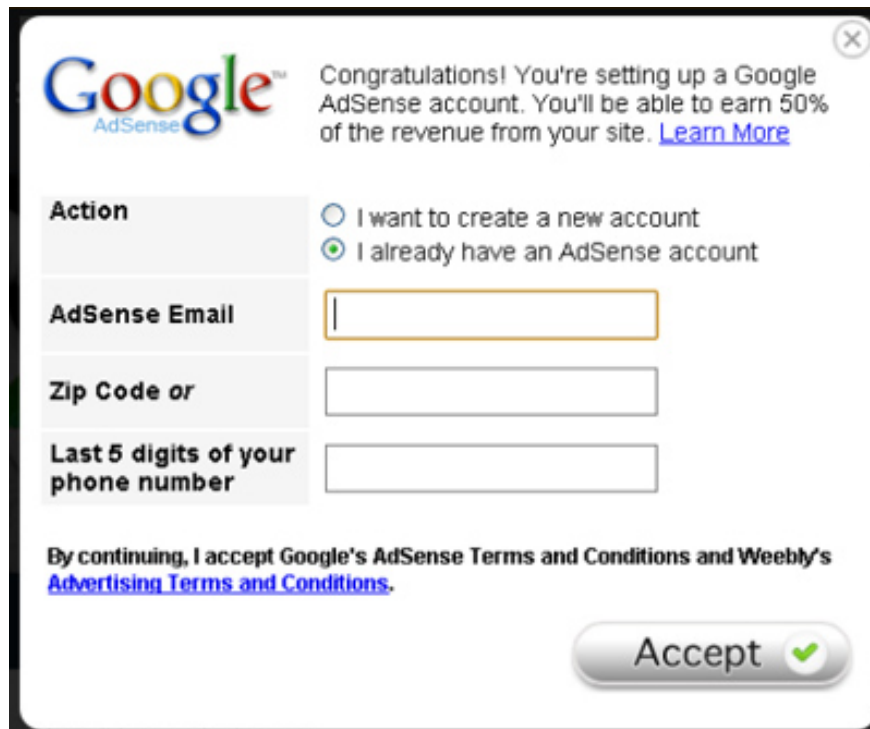

This is a great function of Weebly, users first rely on the basic template available, then gradually change the internal components. Quite similar to WordPress, Blogger . users are spoiled for choice between diverse themes and objects:

You can refer to Weebly and the basic ways here:

Specific components inside Weebly

Using different construction technology platforms, will be a challenge for users when they want to add media slideshow function or make money from your website. But with Weebly, the other, if you want to add the function to run the video file, just add the corresponding option from the toolbar, and if you want to post the advertisement, then select **AdSense** in the appropriate place:

The image shows a Google AdSense account setup form. At the top left is the Google AdSense logo. To the right, a message reads: "Congratulations! You're setting up a Google AdSense account. You'll be able to earn 50% of the revenue from your site. [Learn More](#)". Below this, there are two radio button options under the heading "Action": "I want to create a new account" (unselected) and "I already have an AdSense account" (selected). There are three input fields: "AdSense Email", "Zip Code or", and "Last 5 digits of your phone number". At the bottom, there is a checkbox for "By continuing, I accept Google's AdSense Terms and Conditions and Weebly's Advertising Terms and Conditions." and a large "Accept" button with a green checkmark.

Besides, there are many other options such as linking Google AdSense, editing HTML directly to link to Amazon account, YouTube card and insert URL link .

Blog Weebly

On the other hand, if you need to build a blog or a link to the website, use the Weebly Blog function. Scroll to *Pages > New blog* page to create a new blog:

On the Stats tab, you can see the number of readers visiting the website, along with the amount of feedback, and easily control all the posts.

Weebly Pro package

Like all other service providers, Weebly also has a Pro package for businesses or individual users who want to use advanced functions at a certain cost. With such convenient and simple features, have you thought about starting to use Weebly?
