The need for sun protection gloves

1. Helps protect the skin from the direct effects of ultraviolet rays, reduces part of the ultraviolet rays that cause skin cancer, melasma, dark skin .
2. Protection from smoke, when toxic causes itching

3. Support motion process, control sports, avoid slippery .
4. Protect skin from burning, cool skin when operating outdoors

Note when choosing to buy sun protection gloves

1. Choose flexible designed gloves to ensure better grip and sweat absorption for players.
2. Choose sun protection gloves made from high quality materials to ensure effective sun protection, ventilation and optimal elasticity.
3. Attention should be paid to sun protection (protection against gloves' UVA / UVB rays). Often these parameters will be reflected on the product packaging.
4. Pay attention to the elasticity of the gloves during use. grip of gloves on hands, do not drop or slip when operating, ensuring contraction and easy operation
5. Choose fingerless gloves or gloves that only protect the upper arm and upper arm depending on your preference.
6. Choose size glove length accordingly

Should buy any type of sunscreen gloves?

1. Hicool sunscreen gloves

Hicool is a brand of sun protection gloves originating from Korea, with UV protection for both men and women to protect the skin from harmful agents.

Its gloves have a unique design, features, especially suitable for athletes, active sports players.

The product is made of dry cotton elastic material brings a pleasant feeling. Design glove hug but not so that cause hot secret, uncomfortable for users.

2. Let's Slim sunscreen gloves

Let's Slim is also a brand from Korea with a variety of gloves designs, suitable for many people's interests.

Its gloves are made from high-quality elastic material, cotton, bringing a cool, pleasant, and not hot secret feeling. In addition, gloves are also diverse in size, with high elasticity and effective wicking of sweat.

3. Adidas sun protection gloves

As a famous American brand, surely sports lovers will not be too strange with its popularity. Adidas offers models of sports sunscreen gloves with high-quality fabric, elasticity, sweat absorbing, extremely effective. Adidas sun protection gloves provide high UV protection, protecting the skin from damaging ultraviolet rays. High price segment for genuine Adidas gloves.

4. Aqua-X sun protection gloves

Its sun protection products are made of 4-way elastic material for a cool feeling. Besides the optimal sun protection, good sweat absorbing creates a pleasant feeling for the user. Aqua-X's gloves are not that size, but they always have a comfortable hug and do not slip.

Notes on using sun protection gloves

Quite familiar and friendly, but not everyone knows how to use them effectively. Here are a few notes for you:

1. To increase sun protection effect for optimal skin protection, users should combine gloves with appropriate sunscreen. Because gloves only help eliminate a part of the impact and there are still many small wavelength UV rays penetrating causing skin damage.
2. Dark sun protection gloves provide the best sun protection, absorbing UV rays to protect skin. However, dark colors will cause heat to users due to their ability to absorb heat. So consider when choosing
3. Need regular hygiene, cleaning by gloves contaminated with dust, sweat, for a long time will generate dirty bacteria.
4. Should use 2 or 3 gloves at the same time, continuous replacement to ensure hygiene, ensure product durability during use.
