From how to drive, details about the parts on the car like . Maybe it does not help you to learn more about the problems in the car but certainly helps you somewhat. more about cars.

To make it easier to get acquainted with Car Simulator 2, you can take a look at the instructions below this article.

Car Simulator 2, how to play and basic instructions

First, in the main interface you can log in with your VK, Facebook, Youtube accounts. Or can click **Start** play always.

Next you will receive basic instructions such as opening the car door, how to control the car .

When approaching the car, if you do not know where to touch to perform the action, there will be icons in the position for you to click on it.

When you sit in front of the steering wheel, you will see the control icons and parameters appear.

1. Number 1: Accelerator pedal, pressing the car will move forward. Right above this symbol will be the symbol of getting out of the car (pedestrian).
2. Number 2: Back pedal, used for reversing and for braking
3. Number 3: Brake lever, used to slow down the vehicle.
4. Number 4: Turn from left to right, car lights, turn signals, emergency lights, turn signals, horns
5. Number 5: Turn left and right

Also in the upper right corner is a car speed meter, gas level, car door open indicator, photo and video recording icons.

The tasks will appear with specific information, that you have to build the car, paint the car, buy a garage and drive into the garage .

After playing for a while, you will be notified whether or not to participate in the tutorial. If you have never played through this game, you should agree to join this tutorial.

You will be guided in detail to each gesture in the game.

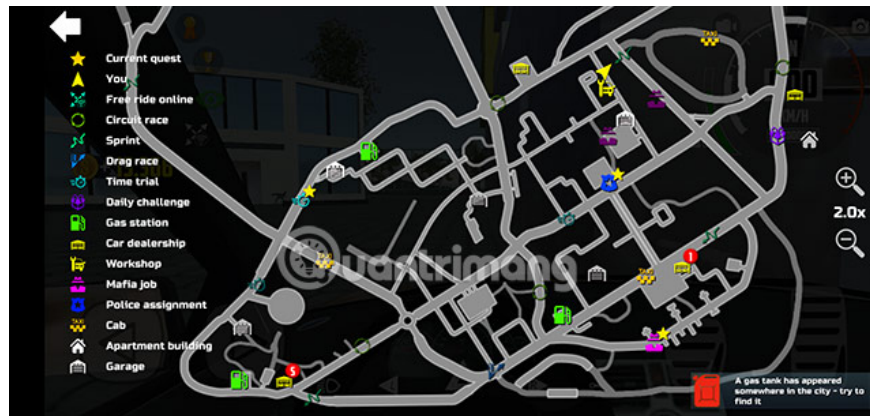

If you have enough money, you can repaint the car, the wheels, adjust the level of the spring . in the Workshop.

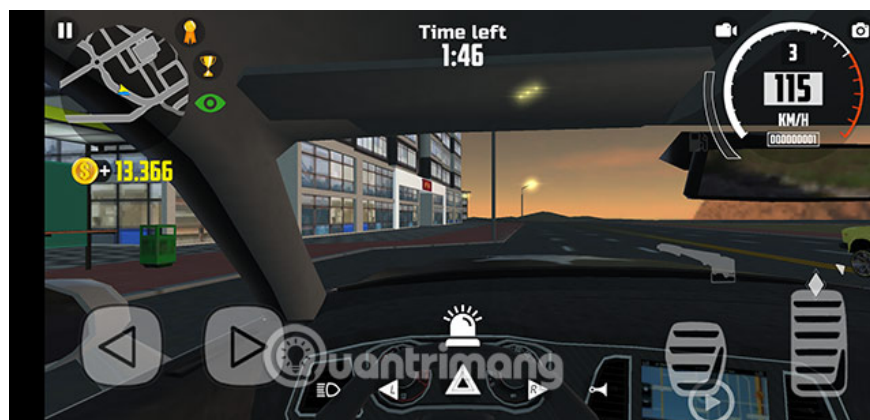

In the game, you do quests to earn money. Click the map icon in the upper left corner.

The symbols on the map will correspond to the location of the task as well as the places you need to visit such as gas stations, garages, car dealerships, workshops), apartments (apartment building) . Types of tasks such as current missions (current quest), police missions (police assignment), taxi drivers (cab), mafia missions (mafia job). .

When performing the task there will be some special symbols that only go vehicles for that task you will see. For example, under the picture you can see the emergency lights for police vehicles.

Every mission in Car Simulator 2 will only be done by controlling the car. Mission requirements may vary but when performed will only be by driving the car only.
