

Change Edge browser default search tool for Windows 10 Mobile

When you enter a word into the Edge browser address bar on Windows 10 Mobile, the browser will display search results from Bing. However, if you want to display search results from Google or another search engine (Yahoo, ...) you can change the search engine on Microsoft Edge browser for Windows 10 Mobile.

When you enter a word into the Edge browser address bar on Windows 10 Mobile, the browser will display search results from Bing. However, if you want to display search results from Google or another search engine (Yahoo, .) you can change the search engine on Microsoft Edge browser for Windows 10 Mobile.

In the article below, Network Administrator will guide you through the steps to change the Edge browser default search engine for Windows 10 Mobile.

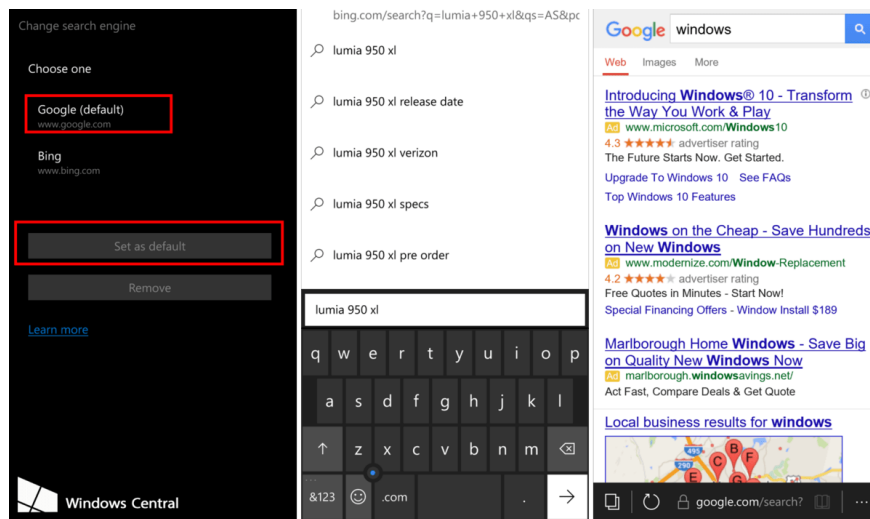

1. Open the Microsoft Edge browser on your Windows 10 Mobile device, then enter the search engine address you want to install. Such as Google.com .

2. Next click on the 3 dots icon in the lower right corner and select **Settings => View advanced settings** .

3. Click the **Change** button under Search in the address bar with.

4. Select **Google** (or any search engine you want) and click **Set as default** .

From now on when searching on Microsoft Edge browser, the browser will display search results from Google (Yahoo, .) instead of displaying from Bing as before.
