

Change smartphones over 10 million VND to get Galaxy Note 4

FPT Shop retail chain on October 3 announced the first smartphone exchange program applied in Vietnam. Accordingly, users can use any smartphone priced at over VND 10 million in exchange for Samsung's new Galaxy Note 4.

FPT Shop retail chain on October 3 announced the first smartphone exchange program applied in Vietnam. Accordingly, users can use any smartphone priced at over VND 10 million in exchange for Samsung's new Galaxy Note 4.

Galaxy Note 4 stands out with the design of a machine made of metal material

Accordingly, users can hold any smartphone that is still in use to FPT Shop and compare it with the selling price of the exchanged machine with the price at the store from September 30 to October 23, if the machine If the price is still over VND 10 million, it will be collected.

After that, users only need to spend 6.99 million more to be able to exchange **Galaxy Note 4** with the price of 16.99 million dong. In total, there were about 240 slots for this program.

The exchanged machine could be a portable product, purchased at any store in Vietnam, in normal operating condition; Full accessories (*headset, charger, .*); no distortion, breakage.

Reportedly, Galaxy Note 4 is a new high-end smartphone from Samsung recently announced at IFA 2014 in early September in Germany. Overall, Galaxy Note 4 still uses 5.7 inch touch screen like the Galaxy Note 3, but is raised to standard 2K screen and the rim of the machine used metal material.

In terms of configuration, Galaxy Note 4 has 2 different processor versions depending on the market, including Qualcomm's latest quad-core Snapdragon 805 quad-core processor version of 2.7 GHz or uses Samsung's 8-core Exynos 5 Octa processor (*4 core 1.9 GHz and 4 core 1.3 GHz*). RAM of the device is 3 GB and internal memory is 32 GB (*support for additional memory card slot*).
