

Check email with password leaked by the Information Security website

After the 1.4 billion email accounts were leaked, the Department of Information Security - Ministry of Information and Communications has built a website <https://khonggianmang.vn> that allows users to check email accounts. whether or not my will be revealed.

After the 1.4 billion email accounts were leaked, the Department of Information Security - Ministry of Information and Communications has built a website <https://khonggianmang.vn> that allows users to check email accounts. whether or not my will be revealed.

According to the Vietnam Computer Emergency Response Center (VNCERT) of the Ministry of Information and Communications, among 1.4 billion email accounts worldwide, Vietnam has 437,664 accounts. Account information using email and password is exposed will create conditions for hackers to hijack accounts and use to attack, steal and destroy information and data systems.

To check if the email has been exposed to the account, enter the email in the box below and click Check:

In order to check if my email has been exposed to a password of information disclosure of 1.4 billion email accounts, users can access the website <https://khonggianmang.vn>, enter the email address box ' **Check revealing account information** ', then click on the ' **Check** ' button. Test results will be sent to the user's e-mail box by the Safety Department.
