

Choose the most stupid friend in the picture!

Choose the person you think is the most stupid in the picture, we will tell you who you are!

1. Only the genius finds all the differences in these 16 photos!
2. 13 puzzles seem simple but can you answer in 10 seconds?
3. 5 puzzles of young children that 95% of adults have to "twist their brains"

Your choice determines who you are, even if it is a small problem. It basically says what your subconscious thoughts are. On the Bright Side page gives you an interesting test: **simply select the person you think is the most stupid in the picture, we'll tell you who you are .**

You choose the number # 1

You are a leader and most likely an extrovert. People around you think they can rely on you, even though you are known for being stubborn and stubborn. You often make decisions very hasty. So, spend more time thinking about your ideas.

You choose the number # 2

" *Measure twice, cut once* ". This proverb is a description of who you are. You are a wise person and have stable feelings. Sometimes, you also repudiate responsibility and blame others. But overall, you are a good person and this makes people around you always want to take advantage of your kindness.

You choose the number # 3

You are the one who likes dreams and dreams very strongly. You always know how to make your dream come true. Sometimes people don't understand you because your thoughts seem too "far away" to them.

You choose the number # 4

You are extremely principle and stubborn. You always have your own views on everything and are ready to break existing orders. However, be careful, constantly demonstrating your point of view with people is often not beneficial, even harmful to yourself. Don't let your " *mouth hurt your body* ".
