Christmas Elf is a Windows software that creates a Christmas desktop wallpaper. It has all the necessary tools to bring the Christmas atmosphere to your beloved computer. Christmas Elf will decorate the computer wallpaper with Christmas trees, Christmas lights, and even play Christmas songs.

After installing the software on the computer, start it from the Desktop shortcut. After starting, the Christmas lights will automatically be decorated around the screen, other settings in the Christmas Elf users will have to install themselves. Right-click on the notification icon and select **Settings** to open the installation window.

You can configure lights and flowers around the four sides of the computer screen. The lights around the screen have different colors and shapes and their flashing sequence can also be changed. Similarly, wreaths also come in many varieties and can be used instead of lights. Like lights and garlands, you can also turn on the snow effect on the screen, choose a number of different snowflakes, snow speed and wind effect for snowfall.

In addition to the effects available in Christmas Elf, you can download the wallpaper from the link in the installation window of the software. With Christmas Elf, you can also add some sound effects to your computer and play some very popular Christmas songs like "Deck Halls", "Jingle Bells", "We Wish You a Merry Christmas' etc .

In addition, the software also places the Christmas tree to the right of the screen. There are many different types of trees for users to choose and add flashing lights to the tree, adjusting the speed of the flash.

Christmas Elf is a solution to create a desktop wallpaper that brings a happy Christmas spirit to Windows computers. It has everything from lights, flowers, trees, snow to Christmas songs.
