

# Clear YouTube history, watch Videos safer, more private

When you watch a video on youtube or comment like ... the information will be published to all friends. Delete your Youtube history easily.

**YouTube** is still the source for many online video content that people use every day. Google+ requires commenting on videos that are already annoying users and Google's push for accounts that are connected to a Google+ page that creates tension with users who want to watch the video and remain anonymous. YouTube has kept track of the video history on accounts when logging into an account for a while, which is a feature they don't mention often.

That's why when you watch videos on youtube or comment like . the information will be published to all friends, . Privacy will be affected. If you want to **delete your YouTube history** then this article will be very helpful.

**You can easily delete YouTube Video watch history, delete YouTube search history easily:**

## Get rid of your Youtube watch history

---

1. From the YouTube home page, scroll down to the bottom of the page. You will find the ' **History** ' section.

2. After you click on History, YouTube will display a list of videos you have recently watched.

The screenshot displays a list of four videos in a watch history interface. Each entry includes a video thumbnail, a title, a channel name, and view count. The interface also features a search bar and various filter options on the right side.

Thumbnail	Title	Channel	Views
	Hướng dẫn tăng FPS giảm giật/lag	Video hướng dẫn	511 lượt xem
	Clean Master for PC	Cheetah Mobile	293 N lượt xem
	[MV Vietsub] Bên bờ hồ Baikal - Lý	chuong gio xinh	51 N lượt xem
	Cậu bé 10 tuổi tự đệm đàn hát Bên hồ	Lý Tiểu Loan Youtube Channel	407 N lượt xem

You can **clear all watch history** by checking the 'Watch History' box and clicking the 'DELETE ALL VIEW HISTORY' button.

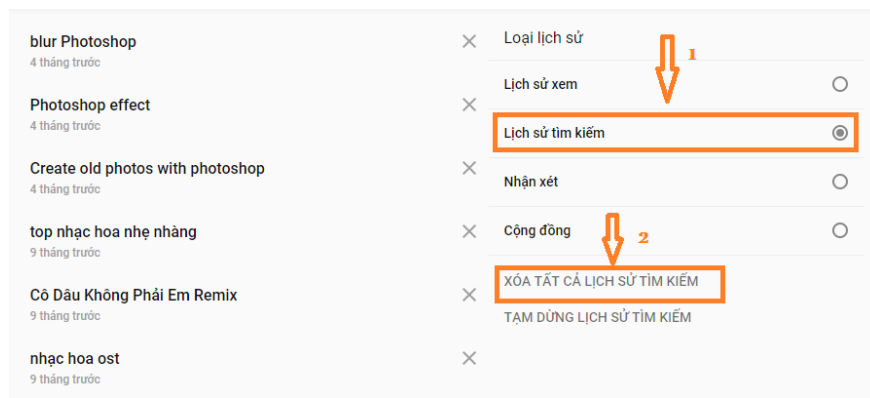

If you just want to delete a few videos you've watched. You go to the video, click the X to the right of the video watched in the list

## Remove search history on Youtube

---

You notice right next to Viewing **History** is **Search History** and check it. A list of search history appears, click 'REMOVE ALL SEARCH HISTORY'

To delete individual items in your search history, click the X to the right of each of your search items

## Check security for your account

---

Generally all of the videos you see in History are videos you've watched, but if you see videos that you haven't watched, your account could be compromised. Your YouTube account is connected to your Gmail account and other accounts. So please consider the security issues offline!
