Features of Clipchamp

Join over 17 million video creators

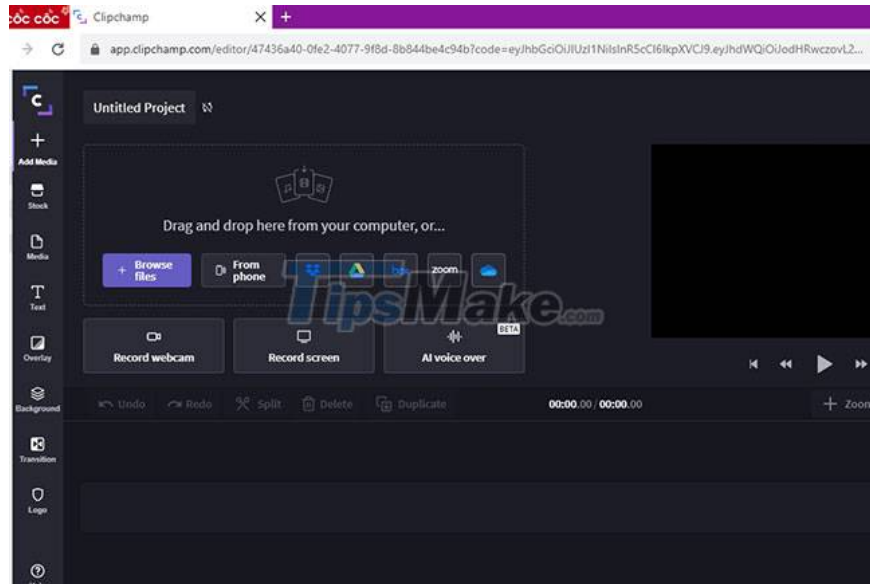

Create beautiful, fast videos with this popular and much-loved free video editor. Whether you need to save upload time, save money on storage, or create an entire video from scratch - if it's anything to do with video, Clipchamp is the best place to start.

Use customizable video templates

Clipchamp's video templates bring you the best: Ready-to-use templates for everything from commercials to wedding videos, all in this versatile video editor, allowing you to truly create your own products. Whether you're creating a video for a social media ad, company slideshow, presentation, or close friend's wedding, Clipchamp has you covered.

Mixing footage and sounds

If you're out of ideas, need a new video store to get the best out of your project, or have your own video files, but the audio doesn't fit, Clipchamp's extensive audio and video library will keep you going. Great videos are a collection of creator-specific content, and that's at the heart of the Clipchamp experience.

Equipped with different video technologies

Clipchamp has been a champion of online video creation since 2014, and the platform continues to add its proprietary video technologies to enhance the flexible and fast video editing experience for users. This includes technologies that allow users to compress, convert, capture, record, and create videos without delay in rendering or being tied to file formats that are difficult to convert or share.
