

## Close up of HP's low-cost durable laptops

The EliteBook 2530p costs only about 11 million but is shockproof, weather resistant, moisture-proof or dust-proof.

**The EliteBook 2530p costs only about 11 million but is shockproof, weather resistant, moisture-proof or dust-proof.**

**>>> HP EliteBook 2530p is super durable at only 11 million in Vietnam**

The EliteBook 2530p has a magnesium alloy chassis that meets the US military MIL-STD 810F durability standard. The honeycomb structure of the shell just helps the machine to increase heat dissipation. Part for the inner hand is also designed with aluminum Anodized scratch-resistant, anti-oxidant as the material of the aircraft shell.

With low-voltage microprocessor, the machine offers continuous usage time according to the manufacturer for up to 8 continuous hours and the ability to charge up to 90% of the battery capacity in about 1.5 hours. In addition, the EliteBook 2530p also features HP 3D DriveGuard hard drive shockproof technology, fingerprint security and hardware-based TPM chips.

The new version of the EliteBook 2530p appears in Vietnam using a low-voltage Intel Core 2 Duo SL9400 processor with 1.86GHz speed, 2GB of RAM and a 250GB of 7,200-rpm hard drive. Machine with reference price is about 11 million VND (excluding VAT).

**Here are some real photos of the HP EliteBook 2530p in Vietnam:**

The brushed aluminum outer shell, the 2530p's structure is very sturdy to resist shock and impact resistance.

Screen size 12.1 inch resolution 1,280 x 800 pixels.

Keyboard with standard size.

The EliteBook 2530 owns trackpoint just like the ThinkPad line.

This model does not use a keyboard backlight but instead is a bright LED light mounted above the camera edge.

Touchpad.

The battery protrudes behind.
