

Close up of the first 4 smartphones of Vsmart: nice design, stable configuration, price from 2.49 million

The first smartphones branded Vsmart were officially launched, with the names respectively Joy 1, Joy1 +, Active 1, Active 1+.

The first smartphones branded Vsmart were officially launched, with the names respectively Joy 1, Joy1 +, Active 1, Active 1+.

Vsmart Active 1+ costs 6.29 million

This is Vsmart's most advanced product in this first launch. Active 1+ has luxurious design with monolithic metal frame, the back is made of Gorilla Glass toughened glass 5. It is equipped with a 6.2-inch screen, full HD + resolution and has rabbit ears. The rear dual camera has a 12MP and 24MP resolution, the selfie camera has a resolution of 20MP.

The power of Active 1+ is provided by Snapdragon 660 chip, 6GB RAM, 64GB internal memory and 3650mAh capacity battery that supports fast QC 3.0. It supports 2 SIM, with 3.5mm headphone jack, USB-C connection port.

Active 1+ is equipped with fingerprint sensor.

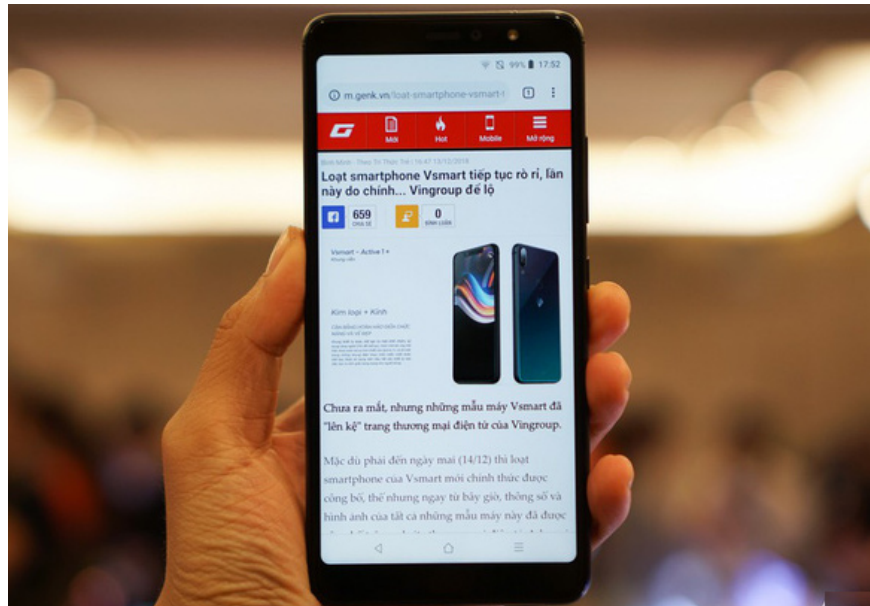

Active 1+ has three colors for users to choose from: Black (Black), Blue (Iridescent Blue - with transition effect) and Pink (Rose). The selling price of Active 1+ in phase 1 is 6.29 million, and the second phase will be 6.59 million.

Vsmart Active 1 costs 4.99 million

Active 1 has an external design similar to Active 1+ with metal frame and Gorilla Glass toughened glass face 5. The difference is that Active 1 owns IPS LCD screen with size of 5.65 inches, resolution of 1,080 x 2,060 and no rabbit ears.

Like Active 1+, Active 1 is also equipped with Snapdragon 660 processor and 64GB internal memory but RAM capacity is only 4GB. The dual camera cluster of the camera has a large 12MP aperture resolution of f / 1.8 and 5MP, which integrates fast focusing technology in the Dual PD phase, while the selfie camera has an 8MP resolution.

Active 1 also supports 2 SIM, USB-C port, 3.5mm headphone jack, but the battery only has 3100mAh. In addition, the dual speaker system of the machine with Aqstic technology from Qualcomm gives a maximum capacity of 9W.

Active 1 has a selling price of 4.99 million in phase 1, to stage 2 will be 5.29 million.

Vsmart Joy 1+ costs 3.39 million

Vsmart Joy 1+ has a fake glass scratch-resistant plastic body design with a unique color transfer effect. The screen is 6.2 inches, 720x1520 resolution, HD + resolution, has rabbit ears.

This smartphone is equipped with Sapdragon 430 processor, 3 GB RAM, 32 GB of internal memory, 4,000 mAh battery. The 16 MP + 2 MP rear dual camera with the ability to capture the font is removed, while the front camera is 16 MP resolution.

The price of Joy 1+ in phase 1 is 3.39 million, the second phase is 3.59 million.

Vsmart Joy 1 costs 2.49 million

This is the cheapest product in the series of 4 smartphones released this time, but the Joy 1 has a modern design with 5.5 inch screen size, 18: 9 long ratio, HD + resolution. The frame and back face are still made of glass imitation plastic.

Joy 1 has Snapdragon 435 processor, 3GB RAM, 32GB internal memory, 3,000mAh battery. The camera only has a single camera with 16 MP F / 1.9 sensor on the back, the front is a 5 MP camera.

The cheapest Vsmart Joy 1 model has a price of 2.49 million in the first phase, and the second one is 2.59 million dong.
