Since the beginning of 2006, consumers have witnessed the rapid pace of price reduction of laptops. CMS brand manager, Mr. Nguyen Minh Huyen, said that this market in Vietnam was large enough that the competition between brands became more fierce in order to gain market share. " *Laptop prices in Vietnam are currently very sensitive to changes in the world market. It is expected that the price of this item will continue to be maintained until Tet because this will be a strong shopping time.* "Mr. Nguyen Minh Huyen said.
