Link to enter code Dai Bang Chu

Step 2: In the top-up and giftcode feature section, select Giftcode then enter one of the codes in the code table above into the code entry box. Then select **Use** below to redeem the code.

Step 3: If you see a message saying the giftcode was used successfully, it means you have successfully redeemed the code.

Check the reward entered from the giftcode

Step 4: Now go back into the game and select Mailbox.

Step 5: Then select System in the Mail interface, select Receive to receive all the rewards in your mail.

How to get more Dai Bang Chu codes

To receive more codes from the publisher of the game Dai Bang Chu, follow this page of TipsMake.com.com. Save this page by pressing CTRL+D to save it on the bookmark bar and reopen it every day to check for new codes. TipsMake.com.com will regularly update more codes that the publisher gives to players.

Or you can follow the official developer pages, they will launch giftcodes for players and maybe events that also have bonus codes. Participate in events to earn codes to exchange for rewards.

Can't change the code for the Great Leader?

It is possible that the code you redeemed has expired. Usually, the code released by the publisher will have a usage period. However, the Newbie code has a fairly long usage period, usually a few months to attract new players.

However, codes from events or released by the game publisher on holidays or to celebrate a certain game event such as reaching a large number of players, the game opening a new server, updating new content. will have a short usage time. So you should enter a series of game codes while they are still in use.

Another reason why the code you change does not work is that the code you entered before, and now you enter it again, it does not work. So please note that each code can only be entered once with 1 character.
