## How to enter Goddess Wild Rift code

The game has two ways to enter codes that you can use, you will be able to have both ways to enter codes to use.

**Step 1:** Select Phuc Loi on the right side of the screen after you have completed the initial tutorial and are free to choose game features.

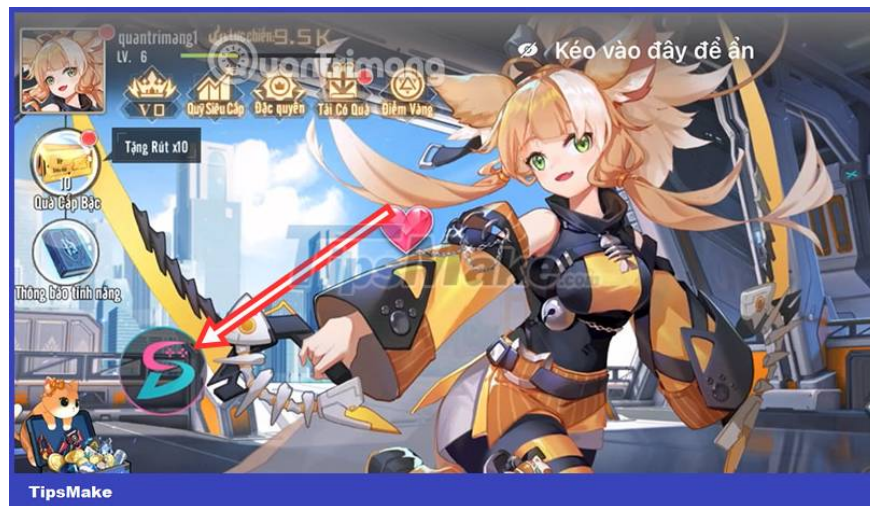

**Step 2:** In the list of Benefits features, select Activation Code, then enter the code in the code input box and select Redeem to exchange the code for a reward.

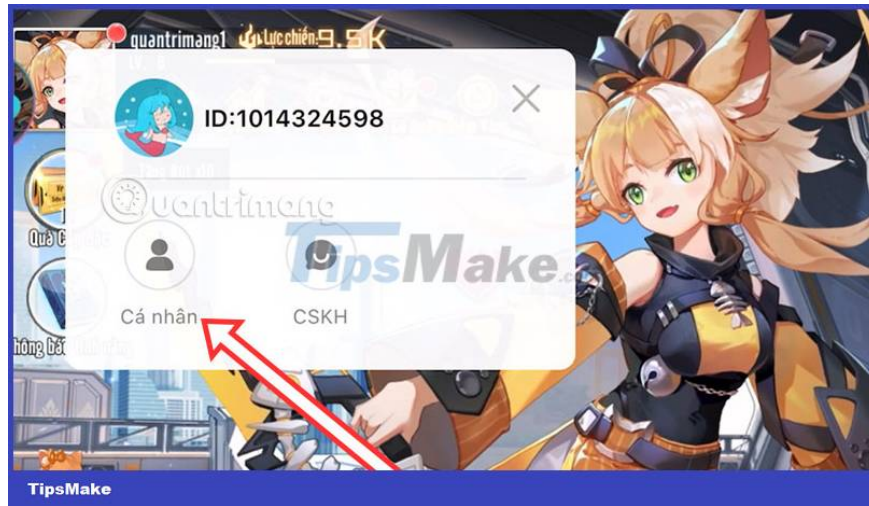

**Step 3:** If your code is still valid, you will receive the reward immediately afterwards. Click on these bonuses and you will see what they are and what you can use them for.

**Step 4:** If you don't see the game code displayed in the Welfare section, select the game publisher's icon to open the list of Personal Center features.

**Step 5:** Select Personal.

**Step 6:** In the list of Personal Centers, select Redeem Code Center. The code table opens and you enter the code to redeem the reward.

You can use either of these two code entry features to exchange codes for rewards. With the Phuc Loi feature, you need to reach a certain level to unlock the code entry feature in Phuc Loi.

## Where to get more codes?

You just need to save TipsMake.com's website to receive more game codes right on this page. We will regularly update Goddess: Wild Rift codes for you to use and exchange codes. Or you can receive rewards in the following ways:

1. **Facebook Goddess Wild Rift:** The game publisher's official Facebook Fanpage is where you can receive information about the game's giftcode or updates on new game content and unexpected changes about the publisher. go out.
2. **Youtube Goddess Wild Rift:** Youtube channels of game publishers or Youtube channels of Streamers cooperating with game publishers will all have gift codes. Either the official channel will release the game code, or the code will be given by the publisher specifically to Streamers so they can give it back to the

players.

3. **Gaming community:** In addition to game codes shared by gamers on the gaming community. You can also receive information about events or information about the latest content updates that the game publisher releases for players.

## What if you can't change the code?

There are many reasons why you cannot redeem the Goddess Wild Rift giftcode for rewards, including:

1. **Input wrong code:** This is the most common cause. Make sure you enter the code correctly, including uppercase letters, lowercase letters, and even .
2. **The code you entered has expired:** If you enter an expired code, you will not be able to receive the gift. Game codes do not last forever and you will have to redeem them before they expire, especially codes received from events.
3. **System error:** Although very rare, sometimes the code redemption system may encounter an error that prevents you from redeeming the code. In this case, you should wait for the game system to fix the code entry error or contact the game's customer support for help.

## Some ways to fix errors when entering code

1. **Double-check the code:** Make sure you enter the code correctly, including uppercase, lowercase, and special characters.
2. **Check the code's expiration date:** Each code has a certain expiration date. Please check the code information carefully before entering.
3. **Check if the code is valid with the codes released by the game publisher:** Maybe the code you entered is not for your server or region. Or you entered the code with some wrong details compared to the code released by the publisher, sometimes just the wrong number because the person sharing it wrote it wrong.
4. **Contact the game's customer support:** If you've tried all of the above fixes and still can't redeem your giftcode, you should contact the game's customer support for help.

Note that each game code can only be used once per account, the code can only be used by exchanging in the server itself and the Welfare feature in the game. In addition, please update the game code regularly and enter the code correctly if you cannot copy the code in the code table above.
