1. Adrenaline slows down time and increases resistance, melee damage and accuracy when aiming.
2. Suicide cheat does not work if "Unlimited Health" is activated.
3. When "Unlimited Ammo" is activated, pedestrians get unlimited bullets.

4. "Unlimited Health" does not protect CJ from things like drowning, falling, police helicopter guns or explosions.
5. "Unlimited Oxygen" is also called "Infinite Lung Capacity". With it, you will not need to breathe underwater without drowning.
6. This weapon cheat includes all of the following: baseball bat, knuckles, 9mm pistols, Micro SMG, rocket launchers, spray paint, Molotov cocktails, rifles and AK-47s.
7. This set of weapons includes a knife, desert eagles, hunting guns, sniper rifles, fire extinguishers, grenades, flamethrowers, M4 carbine and TEC 9.
8. When using this weapon in GTA, you will get a 9mm saw, SPAS 12, MP5, M4 carbine, sniper rifle, thermal missiles, and satchel bombs.

Once you have successfully entered a cheat, you will see a message indicating that the cheat has been activated. If you don't see this message, try using one of the duplicate cheat codes you see above.

For example, if WHERESTHEFUNERAL is not working to generate Romero, try another cheat right below it, AQTBCODX.

What is 'Grand Theft Auto: San Andreas'?

"Grand Theft Auto: San Andreas" is the seventh release in the "Grand Theft Auto" game series. In San Andreas, the player takes on the role of Carl "CJ" Johnson, who is forced to work for a corrupt police officer to avoid being charged with murder.

San Andreas is based on the state of California and will have players taking part in missions in major cities like Los Santos, San Fierro and Las Venturas, similar to the actual cities of Los Angeles, San Francisco and Las Vegas.

An open-world style game, a sandbox-style model used in previous games. "Grand Theft Auto: San Andreas" is the last game in "Grand Theft Auto III" era of games. This is also one of the most controversial games of all time by "Hot Coffee" mod containing pornography. This content was eventually deleted in subsequent releases after the game was removed from major retail markets worldwide.
