

## Colorful accessories of Sony Vaio E series

Sony Vaio E series computers are in addition to colorful designs, and also come with colorful accessories.

**Sony Vaio E series computers are in addition to colorful designs, and also come with colorful accessories.**

Vaio E series basically owns 15.5 inch screen (recently added 14 and 17 inch lines) with Core i3 or i5 processor, up to 8GB RAM, ATI Mobility Radeon 5470 graphics card with 512 MB VRAM.

This is a new series of laptops introduced by Sony a long time ago with many colors to choose from such as black, white, pink, blue and blue. Perhaps that's why the accessories that come with the device, such as a keyboard protector or mouse, are similarly colorful. These products are made of very durable silicon rubber that is dust-proof, water-resistant and sells for about 20 USD.

*Here are some pictures of these accessories.*

This keyboard protector has many colors to choose from

This protective piece is made of a very durable silicone rubber that is dust and water resistant.

Can be flexed to store neatly when brought with the machine.

When covering the keyboard, this protective pad retains a good feel.

Use the red protector for Vaio E black.

The combination of colors also makes interesting for Vaio line towards this youth.

In addition, the mouse sold with the machine can also choose different colors.
