  3. Poongsan aluminum ladder
3. Which brand aluminum ladder should you buy?

## Why is aluminum ladder increasingly popular?

In the past, when it was necessary to carry out the above tasks, people often needed the support of bamboo ladders, wooden ladders, and high chairs . However, these items were often not created when used. Sure, there is always a need for one or more people to stand below. Another disadvantage is that bamboo chairs and ladders are heavy and bulky, difficult to carry around, and can be termite after a period of use.

The birth of all kinds of aluminum ladders, the common name for all types of ladders made of aluminum, aluminum alloy, stainless steel and stainless steel has gradually changed the habit of using ladders made of wood and bamboo. The advantage of aluminum ladders is light, durable, highly portable and does not require storage space. Aluminum ladder is also divided into many types such as *A-ladder ladder, drawing ladder, chair ladder, sliding ladder* with different functions, allowing to customize the height so users can easily choose so that it best suits the item. My intended use.

Prices of all types of aluminum ladders, especially those commonly used in the family, are not too expensive, only a few hundred thousand dong have been bought a ladder that can be used for a long time, not rusty, termites Weevil . so extremely economical. Therefore, aluminum ladders easily displace the wooden ladders and bamboo ladders.

Aluminum ladders support many repairs and cleaning of household furniture.

## **Learn about 3 premium aluminum ladder brands Nikawa, Nikita and Poongsan**

### **Aluminum ladder Nikawa**

Nikawa NK-48 aluminum lift ladder.

**Nikawa** is a Japanese brand, born in 1996. Up to now, Nikawa has more than 20 years of experience in the field of manufacturing tools and tools for home repair and use at home. workshop, construction site .

Nikawa aluminum ladders are manufactured on modern technology lines that meet European standards such as EN131, CE and are well received by consumers even in the most demanding markets such as the US, EU . Nikawa offers a variety of products. Aluminum ladder products, with many product designs in all A, ladder, ladder and sliding ladder lines, fully meet the needs of users.

## **Aluminum ladders Nikita**

Stainless steel handrails 4B Nikita IN04 .

**Nikita** is also a brand from cherry blossoms, famous for aluminum ladders and folding beds, medical beds.

Aluminum ladder products Nikita also achieves quality certifications according to European standards and is preferred by consumers. Nikita aluminum ladder products are also very diverse, but this brand only has A-line ladder, drawing ladder and chair ladder, but not a sliding ladder line.

## **Pongsan aluminum ladder**

Poongsan sliding ladder has a sturdy stand design.

**Poongsan** is a Korean aluminum ladder brand that is also very popular in Vietnam. Like Nikita and Nikawa, Poongsan aluminum ladders are also produced on a European-certified technology line. However, Poongsan focuses on producing two main product lines, the A-ladder and the sliding ladder.

## **Which brand aluminum ladder should you buy?**

**About diversity:** Nikawa offers a wide range of product designs for almost all aluminum and industrial aluminum ladders, allowing consumers to choose the most.

**About product quality:** Aluminum products Nikawa, Nikita and Poongsan are produced on advanced technology and lines, ensuring quality according to European standards so users do not need to worry about quality, degree Safety and durability of these products.

The models of aluminum ladders from these 3 brands are all made from high-quality materials, some of which are still electrostatically painted to ensure light, durable and strong, but still with large loads from 100 to 150 kg. The distance between the steps is carefully calculated so as not to be missed, the ladder is covered with high-grade plastic or rubber to prevent slipping, ensuring safety for users. Users only need to identify specific uses to buy the most suitable aluminum ladder.

High quality aluminum ladder products are safe and suitable for women.

#### **About the price:**

1. **The A-line:** Nikawa ladder is priced from 580 thousand dong; Nikita ladder is priced from 920 thousand dong, Poongsan ladder is priced from 2 million dong.
2. **Draw line:** Nikawa ladder is priced from 1.8 million VND; Nikita ladder cost from 1.6 million.
3. **Seat range:** Nikawa ladder costs from 840 thousand VND; Nikita scale is priced from 680 thousand dong.
4. **Sliding ladder line:** Nikawa ladder costs from 9 million VND; Poongsan scale is priced from 3.1 million VND.

Overall, the Nikita aluminum ladder has the most affordable price, but the Nikawa scale has the widest price range, making it easier for consumers to choose. Particularly for sliding ladders, the Nikawa ladder is mainly aimed at the construction sites, maintenance, protection and rescue work, and the Poongsan scale is more suitable for the attic in the family.

*All three aluminum ladders Nikawa, Nikita and Poongsan can provide good quality products, but Nikawa will give users the most choices. Consumers when buying aluminum ladder products should carefully consider the need to use to buy suitable products, not too expensive because the function exceeds the demand.*
