

Compare battery life Galaxy Note 9 with some other flagship models: Galaxy S9 + / iPhone X / Huawei P20 Pro and OnePlus 6

In order to bring longer usage time for users, Samsung has equipped a 4000mAh capacity battery for Galaxy Note 9. Here are the results of comparing the battery life of this device with some other flagship models due to channel YouTube Mrwhosetheboss done.

In order to bring longer usage time for users, Samsung has equipped a 4000mAh capacity battery for Galaxy Note 9. Here are the results of comparing the battery life of this device with some other flagship models due to channel YouTube Mrwhosetheboss done.

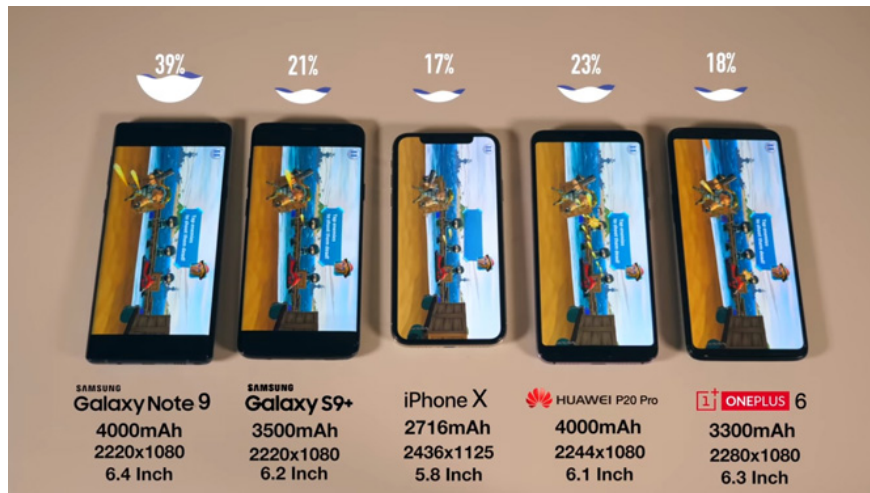

Battery capacity of the machines that Mrwhosetheboss uses to perform the test.

After the first 50 minutes, the Galaxy Note 9 has 77% of the battery capacity, occupying the No. 1 position. Meanwhile, the remaining devices have battery capacity ranging from 63 to 67%.

After using for a long time, while the battery capacity of the remaining devices is only about 17-23%, the Note 9 still has 38%.

Test results showed that iPhone X "reached the finish line" after 4 hours 16 minutes, standing at the 5th position.

The fourth place belongs to Galaxy S9 + with 4 hours 28 minutes.

With 4 hours and 31 minutes, OnePlus 6 ranked 3rd.

20 Pro despite having a smaller screen and battery capacity equivalent to Galaxy Note 9 but also only lasted 4 hours 46 minutes.

Finally, the winner of this challenge is Galaxy Note 9 with 5 hours 21 minutes.

You can see the details of the testing process above in the video below:
