However, there are many people still wondering what brand of air conditioner to choose? Please refer to the following article comparing the three air conditioner brands Gree, Casper and Funiki, so you can make a best choice.

About 3 air conditioner brands: Gree, Casper and Funiki

Before going into the comparison of three brands of air conditioners Gree, Casper and Funiki, let's learn a little about these three brands!

Gree Electric Group is a long-standing brand from China. Gree Electric is one of the well-known corporations in the world with multi-sector and multi-sector business and production scale such as: Home appliances, smart devices, communication devices and automation. Gree air conditioner brand is quite new in Vietnam, but is gradually gaining the hearts of consumers.

Casper brand comes from Thailand Golden Temple country is a multinational company with many branches and distribution networks in many Southeast Asian countries, including Vietnam. Casper air conditioner products are imported from the factory manufacturing and assembly in Thailand.

And finally, Funiki air conditioner brand, the pride of Vietnam. Funiki was founded by Hoa Phat Group with the desire to bring Vietnamese users the best experience of air conditioning products. Currently, Funiki air conditioner products are used by many people.

All three brands of air conditioner Gree, Casper and Funiki have their own outstanding advantages. However, to be able to stand firm in the Vietnamese market, each brand has its own strategies and 'qualities' to create its brand. To better understand this, we will explore in the next section!

Compare Gree, Casper and Funiki air conditioners

Let's find out the advantages and disadvantages of Gree, Casper and Funiki air conditioners to see which is good.

Review Gree conditioners

Advantages

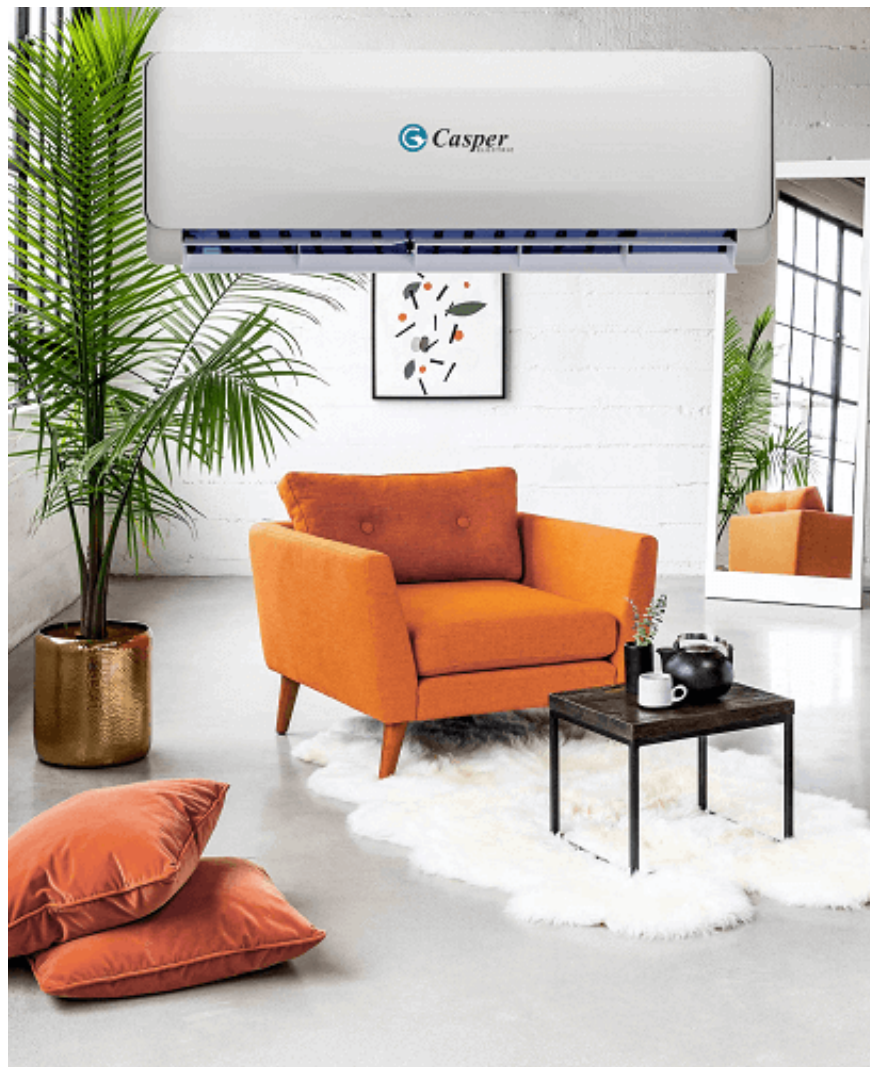

1. Gree air conditioner has a compact design, rugged design, diverse models.
2. Application of modern G10-Inverter technology exclusively from Gree. This technology has the ability to reduce the frequency of operation of the air conditioner to a minimum, helping to effectively chill and save electricity.
3. Gree air conditioner is equipped with iFeel sensor right on the remote (remote), with the function of displaying the exact error code.

4. Remote control feature via Gree + application on smartphones connected to wifi.
5. The error code self-display feature helps you detect errors quickly, saving time and repair costs.
6. Gree air conditioner operates stably, cooling mode, fast heating with environmentally friendly plasma ion technology.
7. Gree air conditioners use a multi-layer air filter system to filter the air optimally, avoiding mold.

Defect

1. Gree air conditioners are of stable quality and cheap price, but the time to launch Vietnam market is not long, not many Vietnamese users know.
2. Located in the cheap segment, Gree air conditioner does not have many high-end models, not meeting many different customers.

Evaluation of Casper conditioners

Advantages

1. Casper air conditioner has a harmonious design, the size is not too big, helping save space and easy installation.
2. Casper air conditioner is integrated with modern inverter technology to help optimize energy saving.
3. Some other modern technologies available on Casper air conditioner: iFeel intelligent cooling technology, iClean technology automatically removes dirt and mold.
4. Cooling capacity of Casper air conditioner is quite diverse and integrated cooling mechanism quickly in just 30 seconds.
5. Casper air conditioner has built-in fault detection function.
6. Casper air conditioner uses gas R410A safe for human health.
7. Some Casper series air conditioners have an automatic error function and a fan mode that allows the air conditioner to blow as far as 15m.

Defect

1. Casper air conditioners are limited in design and design.
2. There is no remote control application like some other types of air conditioner on the market.

Review Funiki air conditioner

Advantages

1. The outstanding advantage of Funiki air conditioner is cheap price, stable quality.
2. Funiki air conditioner has the ability to cool very fast in just 20 minutes.
3. Funiki has the function of automatically reversing up and down from the cave, ensuring a uniform distribution of wind throughout the room.

4. The filter of Funiki air conditioner is capable of filtering dust, pollen of small size, eliminating the smell of smoke and anti-mold.

Defect

1. Funiki air conditioner does not have Inverter technology.
2. Not yet integrated with many technologies and smart features.
3. Funiki air conditioner has traditional design, not many designs.

Should buy Gree, Caser or Funiki air conditioner?

Overall, all three brands are in the low-cost segment, so are suitable for most average users. However, the price of Gree and Casper air conditioner is a bit higher than that of Funiki air conditioner. If you want to buy air conditioner with modern features, integrated smart technology, you should choose Gree or Casper air conditioner. If you are not too important about the design, the features, the technology is integrated, you can choose Funiki air conditioner.

Above are the comparisons and reviews of three brands of air conditioners Gree, Casper and Funiki. Hopefully, the information we have just shared will help you choose the best air conditioner product for your family. Thank you for your interest in the article!
