

Compare iPhone 11, Pro and Pro Max configurations with the most powerful Android smartphone series available today

This comparison is only to provide an overview for users in choosing the right smartphone for them.

Shortly after the iPhone 11, Pro and Pro Max were released, based on information obtained at the event, technology news site TheVerge made a table comparing the configuration of the new iPhone 3 with the strongest Android smartphone models. Currently including Galaxy Note 10, Galaxy S10, Google Pixel 3 and OnePlus 7 Pro.

Basically, the hardware specifications that manufacturers make do not fully show the actual performance of smartphone models.

Therefore, this comparison is only to provide a general view for users to choose the right smartphone for them, not to identify whether the new iPhone configuration is strong or weak compared to Android phones. other.
