

Compare Nokia 5310 version 2020 and 2007 version

Nokia 5310 is a revived version of Nokia 5310 XpressMusic model of 2007, currently available in Vietnam market. Nokia 5310 version 2020 has a different design and features than the 2007 version.

Nokia 5310 is a revived version of Nokia 5310 XpressMusic model of 2007, currently available in Vietnam market. Nokia 5310 version 2020 has a different design and features than the 2007 version.

Nokia 5310 version 2020 (left) has a larger appearance than Nokia 5310 XpressMusic of 2007 (right). The 2020 version measures 123.7 x 52.4 x 13.1mm and weighs 88.2 grams, while the older device is 103.8 x 44.7 x 9.9mm and weighs 71 grams.

Nokia 5310 version 2020 is equipped with a larger screen, 2.4 inches compared to 2.1 inches of the product launched 13 years ago. The speakerphone of the new version is also longer and larger.

Both Nokia 5310 XpressMusic versions come equipped with the T9 keyboard, but the 2020 model is large, rough, and the finish is much worse. The 2020 Nokia 5310 edge is curved and the Nokia 5310 XpressMusic is beveled.

The separate control key system on the 2007 model has a button located on the left side and facing forward, while on the 2020 model it is entirely on the right edge. Speed of activated playing music of the 2020 version also can not be compared with "elder".

The layout of the volume up / down keys is also different, while the Nokia 5310 XpressMusic is on the right, small and has a prominent silver color, the new Nokia 5310 is located on the left and large size.

Both devices have plastic backs, but the new Nokia 5310 (right) has more fingerprint grip, lower finishes, and has a camera cluster with Flash, while the older version doesn't.

The Nokia 5310 XpressMusic has a power key on top, along with a microUSB port for data transfer. The new Nokia 5310 has a microUSB port for charging and data transfer.

The Nokia 5310 version 2020, although released after 13 years, has a lower resolution camera than the model released in 2007.

The new Nokia 5310 (right) uses Series 30+ software quite simply, while the Nokia 5310 XpressMusic (left) runs Nokia Series 40.

About configuration, Nokia 5310 2020 with MT6260A chip, 8 MB RAM, 16 MB memory, even lower than Nokia 5310 XpressMusic with ARM9 chip, 30 MB internal memory.

Nokia 5310 2007 is equipped with BL-4CT battery capacity of 860 mAh, while the 2020 version (right) supports 2 sims, with a 1,200 mAh battery.
