

# Compare the iPad Pro 2018 with the predecessor device 2017

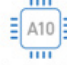

To learn more about the differences between iPad Pro 2018 and the 2017 duo, please watch the Infographic below:

New Apple launches iPad Pro 2018 with new design and terrible configuration. The new iPad Pro has an ultra-thin screen border, incorporating Face ID face detection technology, eliminating traditional physical home keys and headphone jacks.

Compared to the 2017 version, the iPad Pro 2018 has a smaller overall size and lower battery capacity.
