

Comparing computer speakers Edifier R980T and Edifier R1280T

In general, the Edifier R1280T has an attractive appearance, less cocoons and is suitable for small and medium entertainment spaces. And the Edifier R980T speaker is for easy-to-use ears that meet the needs of common music and small entertainment spaces.

Edifier is well known for its superb sound-quality music speakers, Edifier R980T and Edifier R1280T are one of such computer speakers. These are 2 new products of the Speaker 2.0 Edifier Studio product line aimed at home users. Let's quickly evaluate the differences in design and sound quality of these super hot speakers through the article below.

Design of the speaker Edifier R980T and Edifier R1280T

Discussing the design, thanks to the use of wood grain yellow tones for the two sides of the enclosures combined with the light gray of protective cloth film and the remaining 4 wooden surfaces, the music player Edifier R1280T looks more luxurious and outstanding. compared to Edifier R980T.

Edifier R1280T speakers are designed very eye-catching.

Meanwhile, Edifier R980T computer speaker is designed in a rather traditional style with black and black wings. On this point, surely many users will rate Edifier R1280T higher.

Edifier R980T speaker with black design is mainstream.

Both of these music speakers are favored by the company to design forward-facing vents (front bass), so users can easily arrange them on bookshelves, or close to the wall without worrying about losing quality. bass. The computer speaker Edifier R1280T is also equipped with additional bass and treble tweaks in parallel with the volume control function and remote control to control the volume of remote speakers quite conveniently. Particularly Edifier R980T in addition to the volume control button, the company only supports adding custom bass function on the back of the main speaker.

Evaluate the sound quality of the speaker Edifier R980T and Edifier R1280T

Although this pair of computer speakers is equipped with tweeters and mid-bass speakers, but hidden inside each product is different sound quality. When setting up an additional 50% bass boost, this difference will be evident, if Edifier R980T for the dark syllable is the opposite, Edifier R1280T for bright natural sound. The high-sounding range on Edifier R980T still lacks clarity and height, and Edifier R1280T is integrated with a custom treble button so the clarity and height of the high sound bands are improved significantly.

Edifier R1280T speakers deliver high quality sound.

Switch to the treble setting, when listening at high volume level, the computer speaker Edifier R1280T is somewhat unbalanced. With the bass note, this 2.0 channel speaker duo is quite outstanding, the bass notes don't break the sound even when setting 100% bass. However, this setting will cause an imbalance between the negative levels, especially for the Edifier R980T speaker.

The Edifier R980T is suitable for a variety of music types.

In general, the Edifier R1280T has an attractive appearance, less cocoons and is suitable for small and medium entertainment spaces. And the Edifier R980T speaker is for easy-to-use ears that meet the needs of common music and small entertainment spaces.
