--------	----------	--

Note: Codes such as *orz111*, *orz22*, *orz99*, *hoang*, and *OusayGaming* are also working stably. Please enter them one by one to avoid missing any resources.

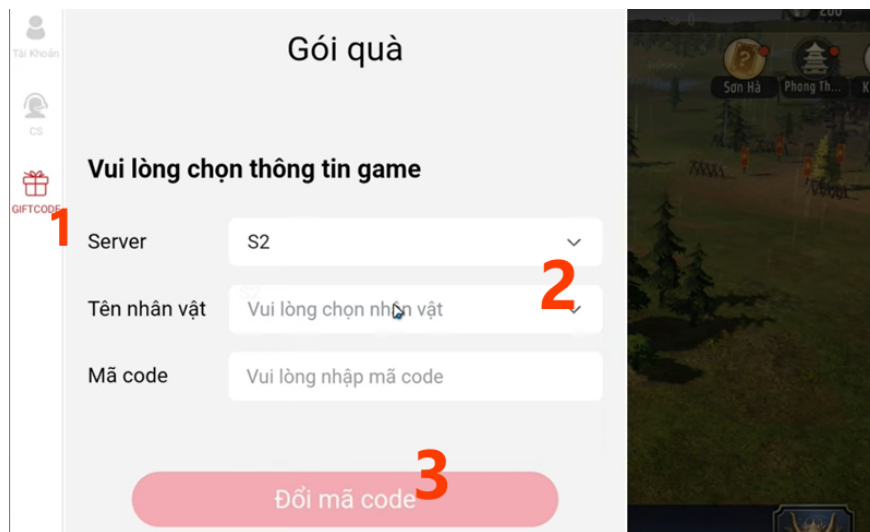

2. Detailed instructions on how to enter codes for Three Kingdoms: War Zone

Unlike traditional games that often hide the code entry option in the Settings, this game integrates the reward redemption feature directly into the main interface for easy player access.

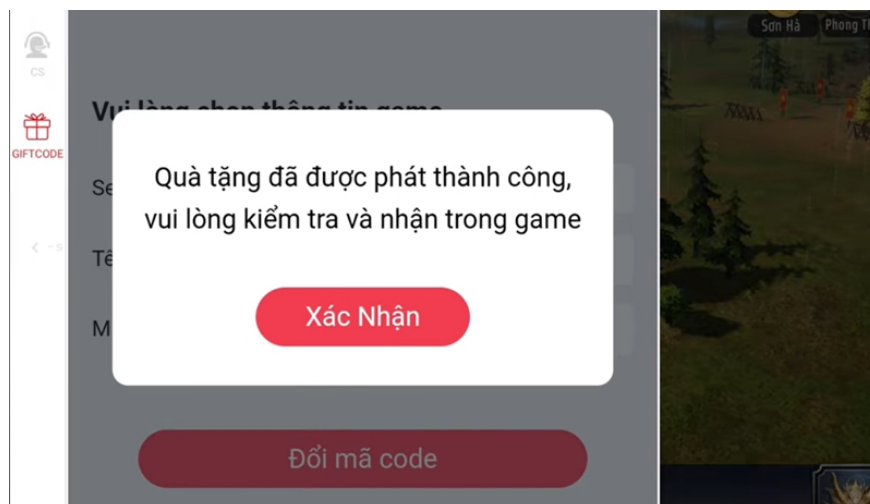

1. **Step 1:** On the game's main interface, find and tap the **[Add]** icon (or the publisher icon) located in the top left corner of the screen.

1. **Step 2:** A list of options will appear; select **GIFTCODE** .

1. **Step 3:** The system will ask you to confirm the **Server** and **Character Name** information . Then, enter the correct code into the blank field.

1. **Step 4:** Click "**Redeem Code**" . The gift will be sent directly to your in-game mailbox immediately.

3. Common mistakes when using Giftcodes

If you enter the code but don't receive your gift, please check the following reasons:

1. **Incorrect formatting:** Code is often case-sensitive. Make sure you don't enter extra spaces at the beginning or end of the code.
2. **Duplicate code type:** Each account can only use one code within the same event period. If you have already entered a "Type A" code, other codes of the same "Type A" will not work.
3. **Expiration Date:** Gift codes from streamers or short-term events usually have a very short validity period (24-48 hours).
4. **Server region:** Ensure your code is for the Vietnam (VN) version, as international region codes (NA/EU) may not be available.

4. Where can I find more free codes?

To stay ahead in the Top rankings, you should follow the game's official information channels:

1. **Official homepage:** Where major updates and Open Beta events are announced.
2. **Facebook Fanpage:** Regularly organizes "Like & Share" mini-games to give away unique codes to individual gamers.
3. **Discord community:** A place for guilds to exchange information and receive codes from administrators.
4. **Streamer/YouTuber Channel:** Content creators are often given exclusive codes to share with viewers.

5. The unique features that make **Three Kingdoms: Battlefield Without Boundaries** so appealing.

Why should you use these codes to invest in the game right now? Look at the outstanding features the game offers:

Real-time 3D free-roaming mechanism

1. No more monotonous arrow lines; you can control your army's movement anywhere on the 3D map. This allows for sophisticated tactics such as besieging enemy strongholds, feigning attacks, or surprise raids.

Switching champions doesn't cost resources.

1. This is a "golden" feature for players. You can switch to new heroes without having to re-level up from scratch, making it more flexible and economical to experiment with different tactical formations.

Career and Beauty System

1. For the first time in an SLG game, you can choose to be a **Ranger**, a **Merchant**, or a **Farmer**. In addition, the interactive feature with beautiful women in **the Beauty Lane** not only provides entertainment but also offers powerful buffs for your troops.

6. Frequently Asked Questions (FAQs)

Question: How many times can each code be used?

1. *Answer: Each code can only be used once per character. However, you can use that code for other characters on different servers.*

Question: Why haven't I received my gift even though I successfully entered the code?

1. *Answer: Gifts are usually sent via mail. Please check your inbox; the system may sometimes be slow by 1-3 minutes due to overload.*

Question: How long is the beginner's code valid for?

1. *Answer: Codes like KING779 usually have a very long validity period (permanent or for the game's lifetime), but event codes are only valid for a few weeks.*
