Introducing the game Pixel War

Pixel War is a tactical role-playing game with a classic pixel art style that is very familiar to gamers. The strategy genre in this game, published by JOYGAMES, is no longer confined to turn-based combat; instead,

interactions and team coordination will lead to ultimate victory.

Furthermore, the most appealing aspect of Pixel War is its multiverse world, which brings together almost all the characters from the most popular anime series such as Naruto, Dragon Ball, One Piece, Bleach, etc. This creates an irresistible attraction for gamers who already love Japanese culture.

Question about the Pixel War game code.

How many times can an account enter the code?

Currently, Pixel Battle codes can only be entered once per account on a specific server. If that account is created and played on a different server, it can be entered again; however, limited codes from events are only valid after a single entry.

What does it mean when I get a CDK error after entering the code?

The CDK error when entering Pixel War codes is caused by **unusual characters in the code, specifically spaces when copying and pasting into the game**. Check the code input field by using your cursor to move to **the beginning and end of the game code** to remove any spaces. You can also use the arrow keys on your computer or click on the two locations to find these spaces.

Above is a complete collection of the newly released **Pixel War codes** for players to experience and play the game. Check out the latest gift codes in the **Game Codes section of GEARVN**. PEACE!
