Learn about Mini World Terrain codes and how to enter them.

What is Mini World Terrain Code?

Terrain Codes (also known as Map Codes) are a very special and unique feature of Mini World: Block Art that other sandbox games like Minecraft don't have. Terrain Codes are a string of characters (letters and numbers) that players enter when creating a new world. Instead of letting the game create a completely random map, entering the code forces the map to be created according to a predetermined "seed." This helps you:

1. **Quick resource discovery:** Rare minerals are easily found.
2. **Explore unique terrains:** Found in special areas such as Peach Forests, Volcanoes, Frozen Lands, etc.
3. **Create a shared map:** Share the code with your friends so everyone can play on the exact same map.
