

Configuration details, new features of the Google Pixel 3 and 3 XL duo just launched

Pixel 3 and 3 XL are designed not very different from the predecessor, owning a large screen, no dual cameras, upgraded both in configuration and software.

After months of waiting, Google finally introduced Pixel 3 and 3 XL at an event in New York (USA). The duo is designed not very different from the predecessor, owning a large screen, without dual cameras, is upgraded both in configuration and software. Here are the features, technologies and detailed parameters of Google's new Pixel Duo.

Both new Apple models have a shape that is not very different from the predecessor with a large front screen with a large but deeper screen, the back face is equipped with a single camera.

Pixel 3 XL owns a 6.3-inch 2K OLED screen, a resolution of 2960 x 1440, an 18.5: 9 aspect ratio with a fairly thick and flawless screen border above. The screen of the Pixel 3 is smaller than 5.5 inches, Full HD resolution. Both machines are equipped with 5th generation Gorilla Glass toughened glass.

The screen of this duo has HDR support for better display and contrast. When the user turns off the screen, the device can still display the time, the song is playing thanks to the Always On feature.

On both Pixel 3 and Pixel 3 XL there is no dual camera on the back according to the current trend, but only a 12.2 MP single camera, f / 1.8 aperture.

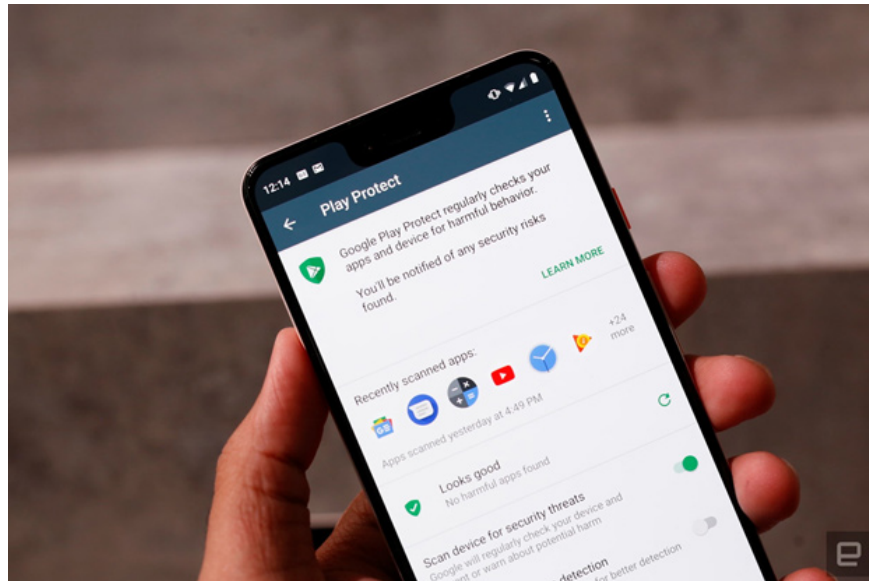

Google has upgraded artificial intelligence on two new models to help them own many smart features.

1. Top Shot: Automatically select the best moments to get the most perfect photos.
2. Super Res Zoom: Helps zoom in without compromising image quality.
3. Night Sight: Helps to capture the best brightness photos without using flash.

Pixel 3 and Pixel 3 XL are equipped with dual selfie camera with 8 MP resolution on the front with a wide-angle 97-degree camera, aperture F / 2.2, the other camera has a 75-degree lens, supports autofocus . According to Google, compared to the iPhone Xs, the Pixel team can help selfie images have up to 184% more shots.

Pixel 3 and Pixel 3 XL are equipped with Snapdragon 845 chips, 4 GB RAM and 64 or 128 GB memory.

Pixel 3 XL battery packs have a capacity of 3,430 mAh and a Pixel 3 battery of 2,915 mAh. Both new models are equipped with IP68 water and dust resistance, supporting fast charging and wireless charging.

Pixel 3 and Pixel 3 XL users are provided free of charge by Google for unlimited lifetime storage on Google Photos.

2 new smartphones from Google are pre-installed Android 9.0. The upgraded Google Assistant has the ability to track spam calls to suggest users to manually block or receive calls after a certain time. Camera application of Google Lens integrated device helps users to find the items they need more quickly.

Pixel 3 and Pixel 3 XL will be sold in the US on October 19 with 3 color versions for users to choose from including black, white and pink. The price of the Pixel 3 is 800 USD (about 18.6 million VND) and 900 USD (about 21 million VND) for Pixel 3 XL. Users will be provided with a headset and a cable from USB-C to a 3.5mm headphone port in the box.
