

# Corel Draw: Painting the convention of the Communist Party of Vietnam

Step 1: Draw a flag shape - Select the rectangle tool (Rectangle Tool - F6) draw a rectangle about 2/3 in width - Click 2 1

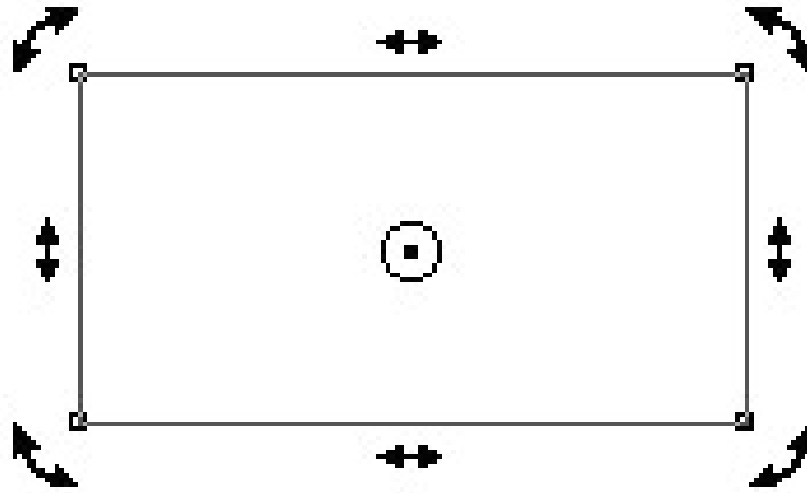

**Step 1 :** Draw a picture of the flag

- Select the rectangle drawing tool ( *Rectangle Tool - F6*

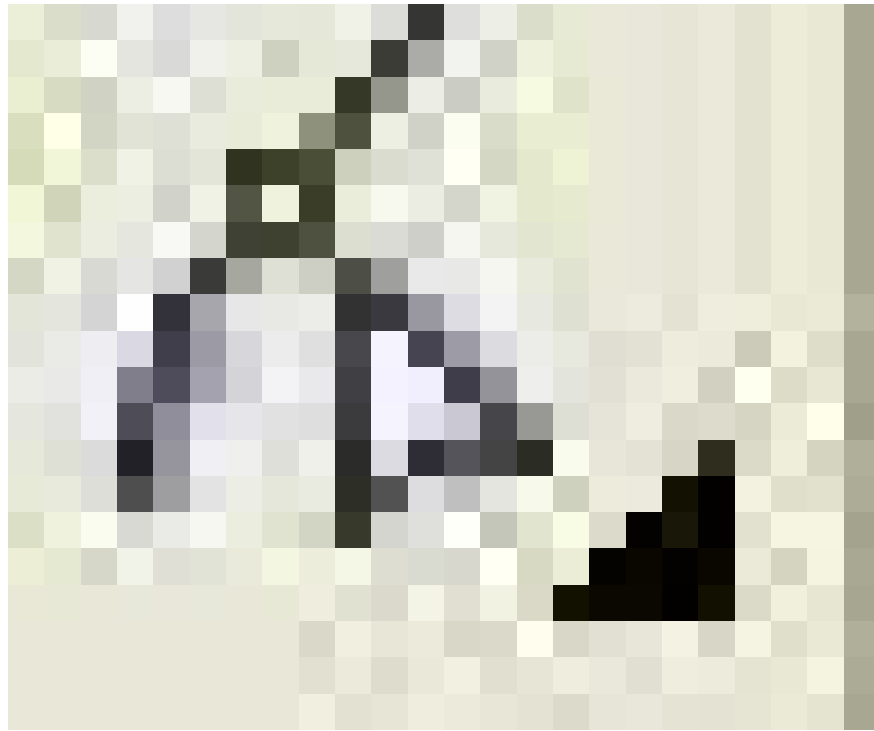

) Draw a rectangle about the size of 2/3 of the length

- Double-click on the rectangle, around the rectangle appear arrows, click on the arrow on the edge of the width and drag down a moderate amount.

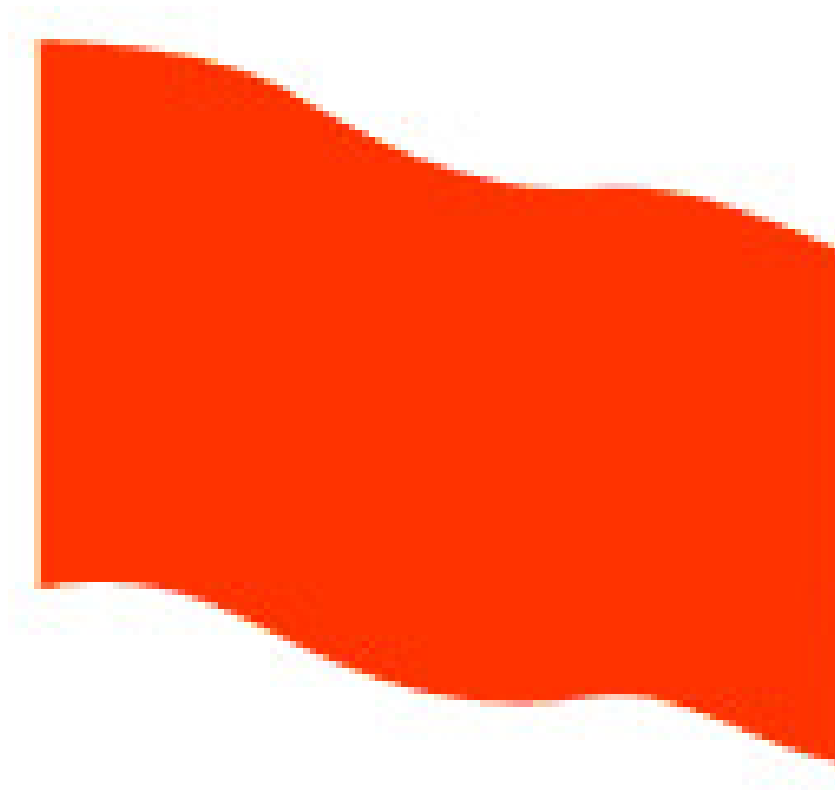

- Select the rectangle -> right click and choose *Convert to Curves*

- Select the node adjustment tool ( *Shape Tool - F10*

)

- Click next to the length, on the *Shape Tool* properties bar select the *Convert Line to Curve* box

Then create a wavy shape for the edges like the flag is flying

- Select the flag image and then left click and right-click on the red icon to color the background and border for the flag

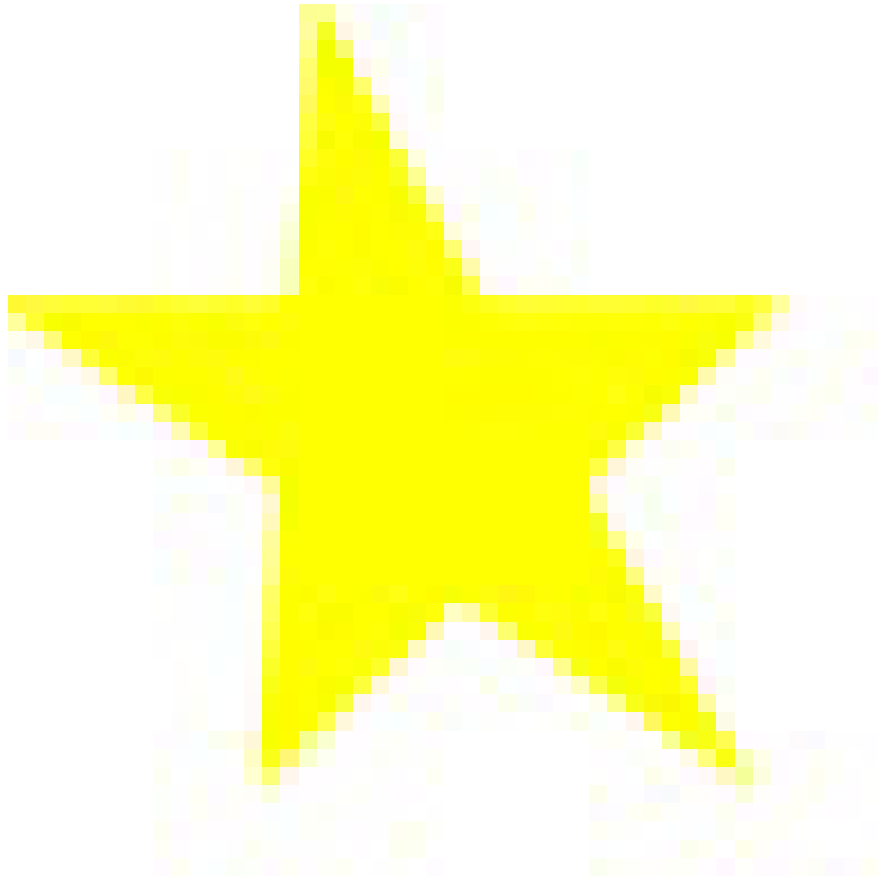

- Double the flag just created us 2 flags

**Step 2 :** Draw the star shape

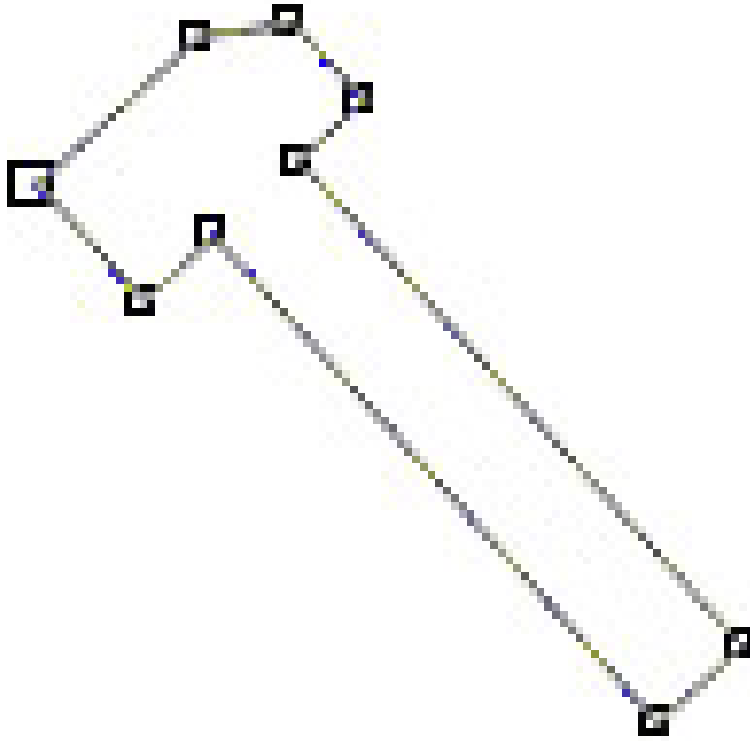

- Select *Star Shape* tool

, in the properties bar select the *Perfect Shapes* box, select the 5-pointed star and draw a star shape

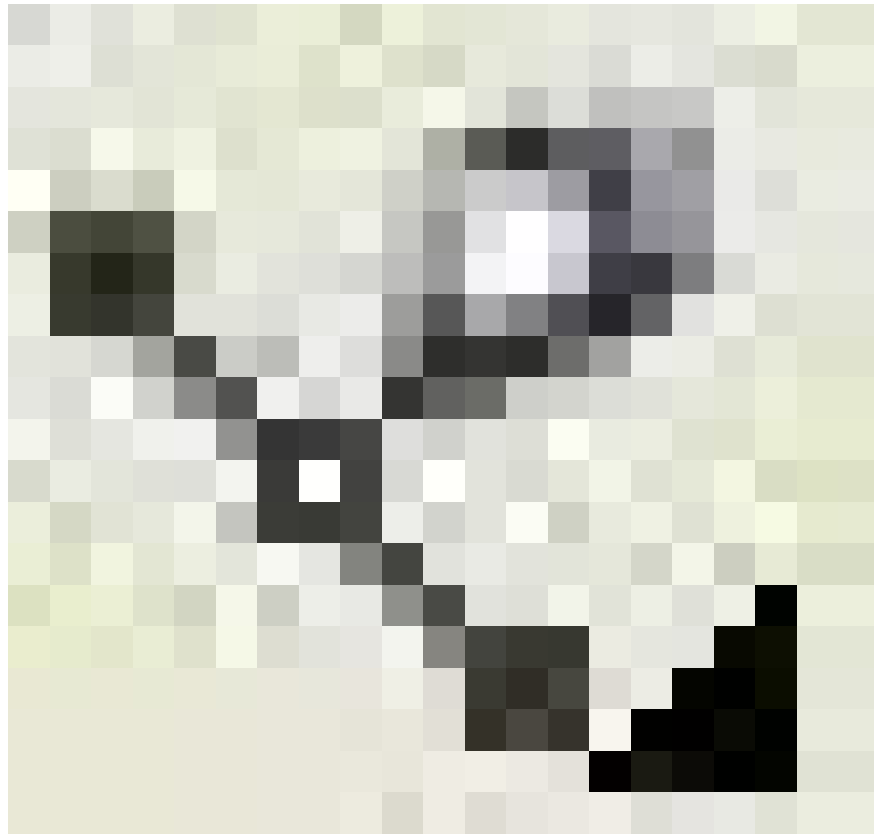

- Similar to the image of the flag you adjusted so that the star image is slightly tilted to the left
- Fill the background and the color of the star border with yellow

**Step 3 :** Draw the hammer symbol

- Select the *Bezier Tool*

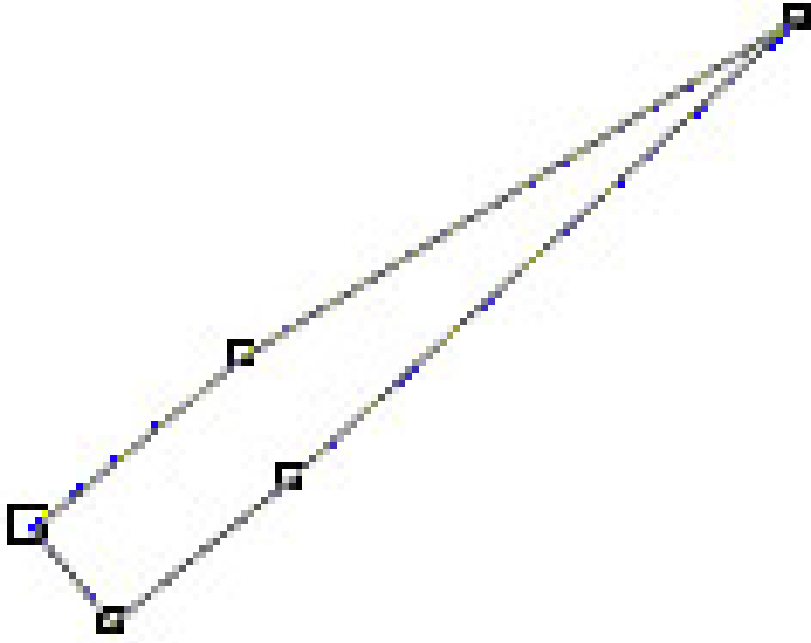

then draw straight lines to create a hammer

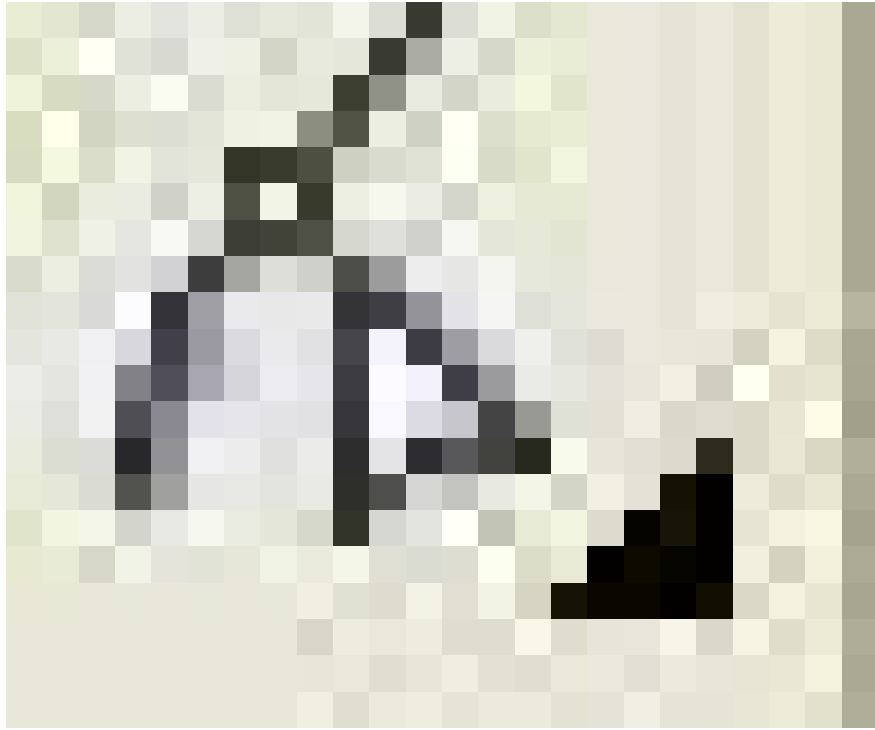

- Color the background and the color of the image of the hammer in yellow

**Step 4** : Draw the sickle icon

- Continue to select the *Bezier Tool* and draw a shape like the following

- Select the node adjustment tool ( *Shape Tool - F10*

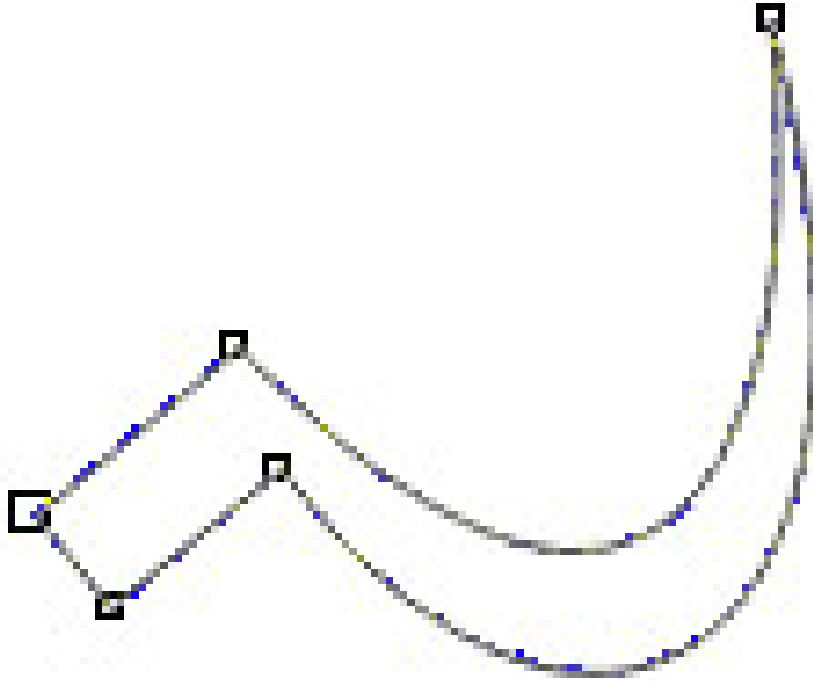

)

- Click on the edge at the tip, on the *Shape Tool* properties bar select the *Convert Line to Curve* box

then bend these 2 straight lines into 2 crescent-shaped curves

- Fill the background and the border with yellow

**Step 5 :** Write the word

- Select *Text Tool* - F8

then write the word **ASSEMBLY** , paint in red

- Continue to select the *Text Tool* and write the **X** , fill it with red

- Select the letter **X** , appear the symbol around the **X** , move the mouse to the vertical edge, at this time the mouse displays a 2-dimensional arrow, click and drag right to a moderate paragraph

- Select the font, font size accordingly

**Step 5** : Complete

- Move, arrange the following pictures to complete the work

- In the process of arranging the images can overlap unintended, you can select the image, right-click, select Order then select the properties to display the image above or below the other images
- Select all shapes, right click and select *Group* to group all shapes into a single image
