

Create comics with 1 simple command that anyone can do!

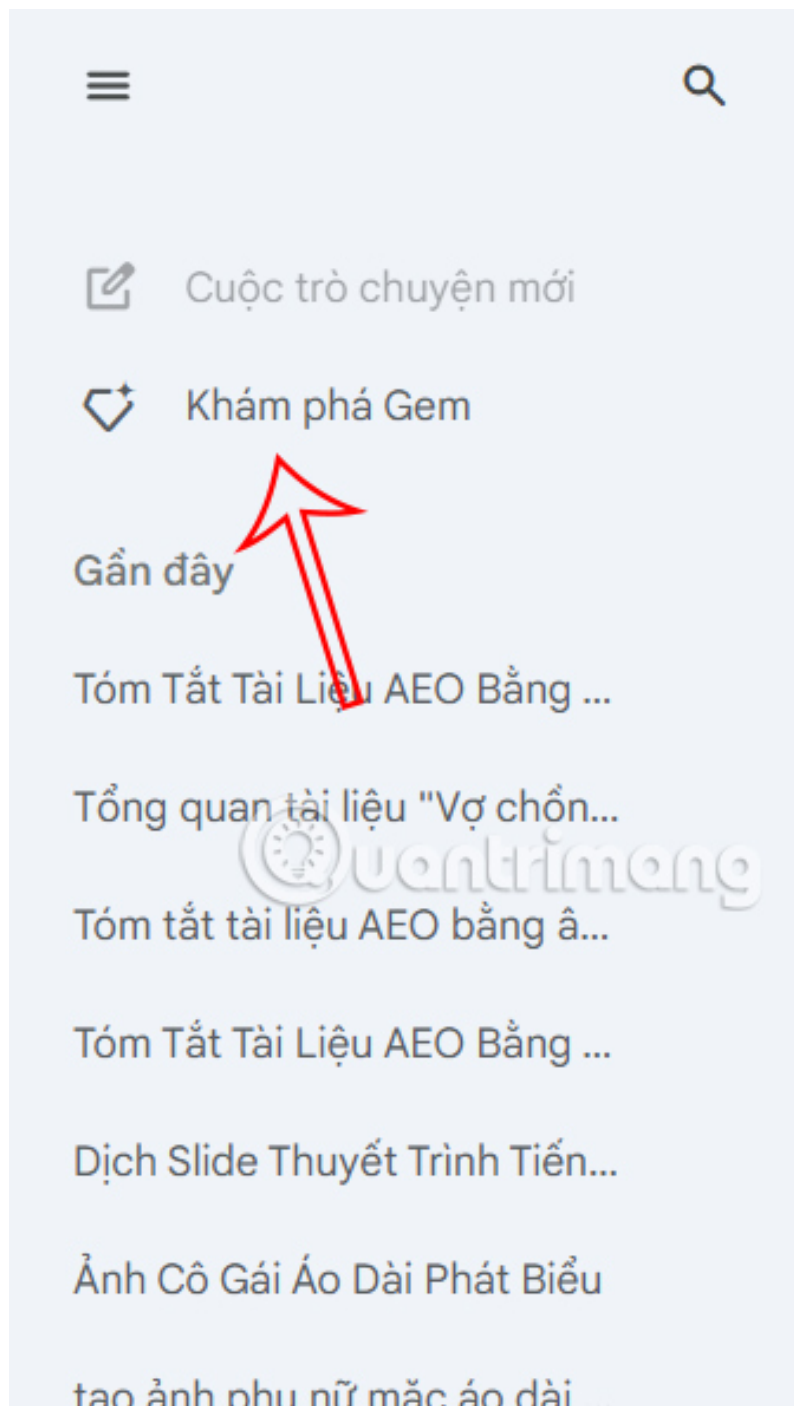

With just one simple command, you have a Storybook on Gemini with quality illustrations.

With just one simple command, you have a Storybook story on Gemini with quality illustrations. This is a new feature that Google added to Gemini for parents or teachers to create illustrated stories for students. In particular, Storybook supports Vietnamese, has audio narration, bringing attractive stories. Below are instructions for creating Storybook comics on Gemini.

How to Create a Storybook Comic on Gemini

Step 1:

First, you access Google Gemini with your Google account. Next, hover over the 3-dash icon and **select Discover Gems** .

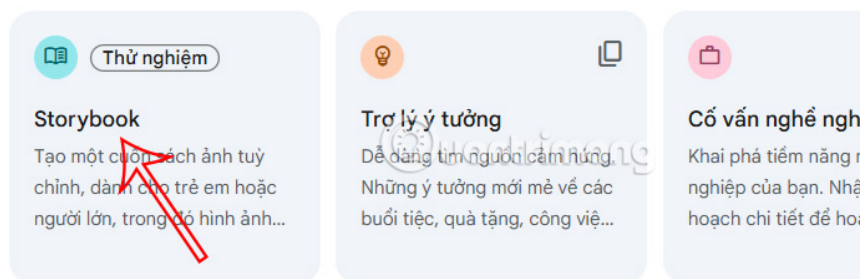

Step 2:

At this point, the user clicks on **Storybook** to create a story using AI.

Các Gem của bạn

Step 3:

At the Storybook interface, **enter the story idea you want to create**, the story theme, the story style. The more detailed the suggestion, the clearer the story Gemini will create. Then click the send button for Gemini to create a story with AI illustrations.

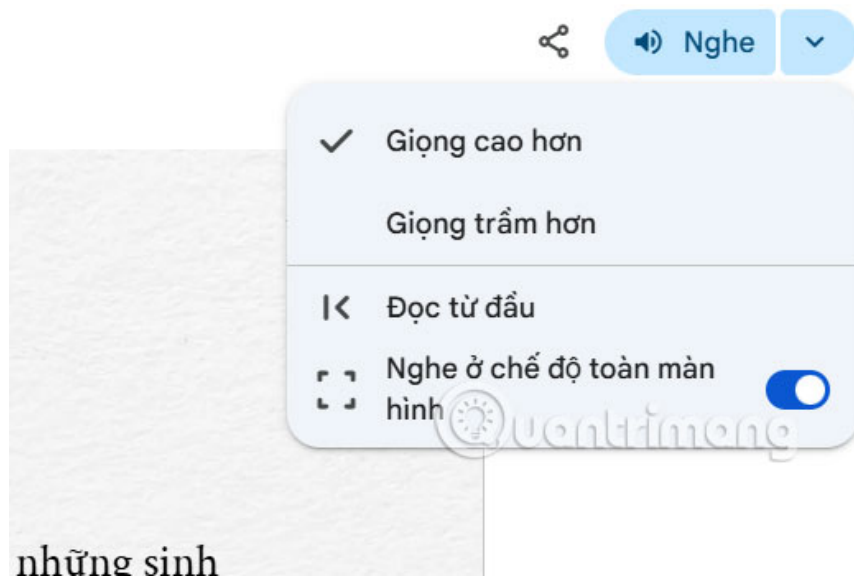

Step 4:

The result is that you have an AI Storybook illustrated story on Gemini as below. The story consists of 10 pages, each page has content and vivid illustrations and follows the style of the story you want to create. Parents can **click Listen** for children to hear the content of the story.

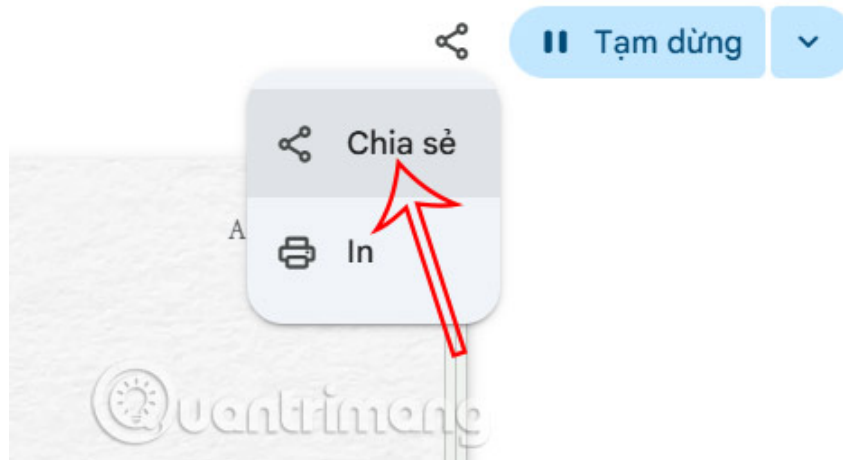

Then you also have the option to listen to stories on Storybook as shown.

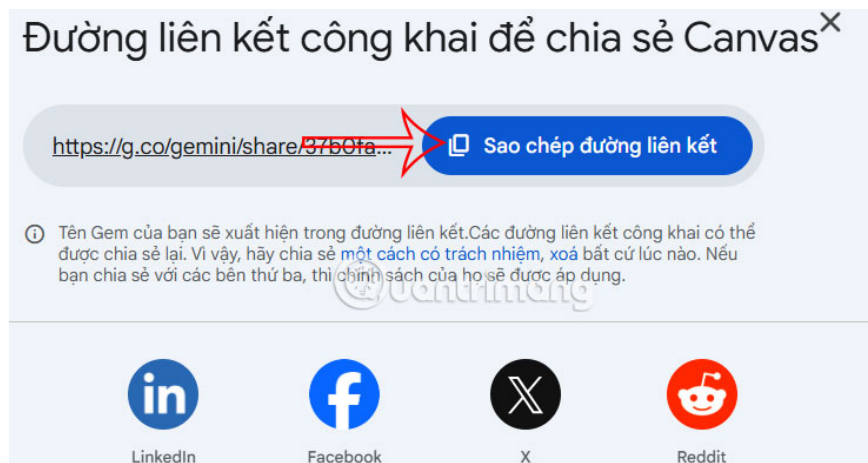

Step 5:

If you want to share this story, tap the share icon and then tap Share.

Just **copy the link** below and send it to anyone you want.
