

# Create a Q&A review chatbot for students using Magic School.

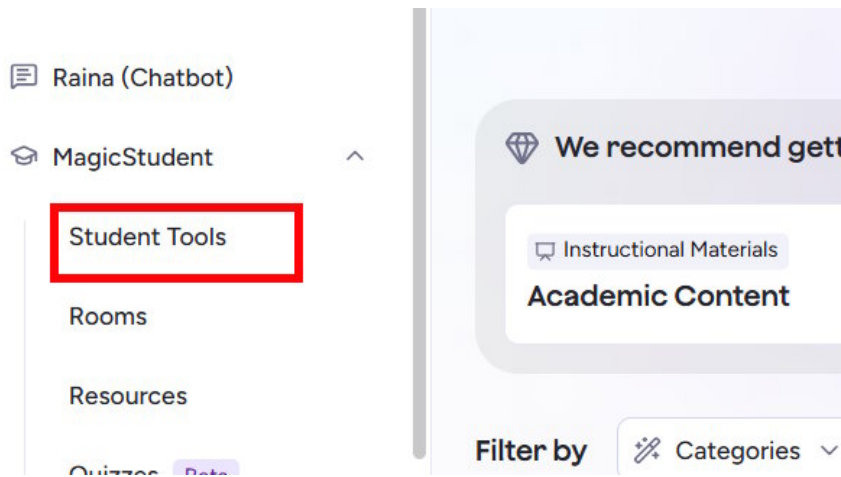

Magic School supports the creation of a Q&A chatbot for students to review lessons, based on teachers' own designs. We will set up this chatbot to focus on specific topics, knowledge areas, and learning content.

Magic School supports the creation of chatbots for students to review lessons and answer questions, based on teachers' own designs. We will set up this chatbot to focus on specific topics, knowledge areas, and learning content. When students review and ask questions related to that knowledge, they will receive immediate answers. Below is a guide on creating a review chatbot using Magic School.

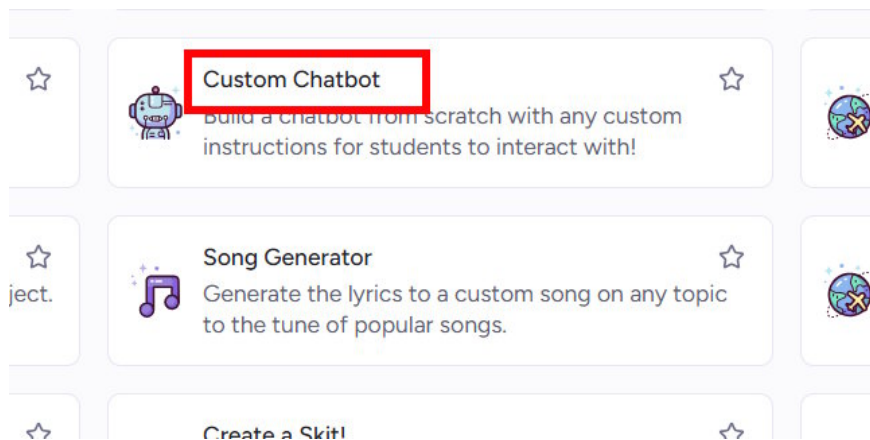

## How to create a Q&A review chatbot on Magic School

### Step 1:

We access the **Magic School website** and then create an account. Next, on the left side, click on **Magic Student** and then select **Student Tools** .

Look to the side and click on **the Custom Chatbot tool** .

## Step 2:

To access the chatbot setup interface, first **enter a name for the chatbot** . Then **select the grade level** you are teaching.

Tool Name \* ⓘ

Lịch sử 7 thời kỳ Đinh-Tiền Lê

Tool Description \* ⓘ

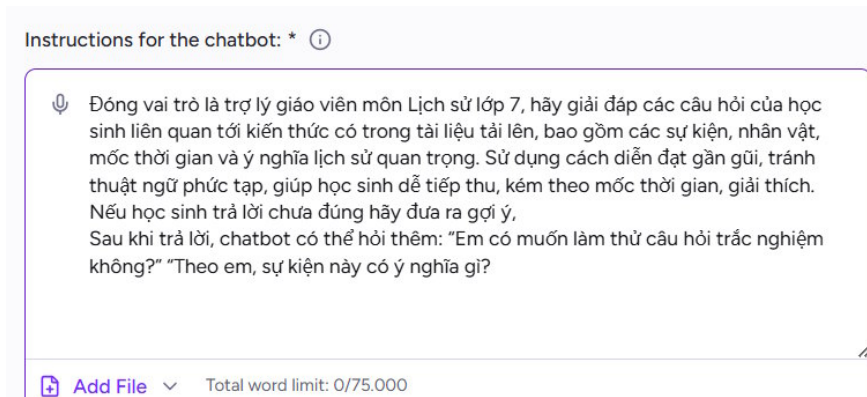

Build a chatbot from scratch with any custom instructions for students to interact with!

Grade level \*

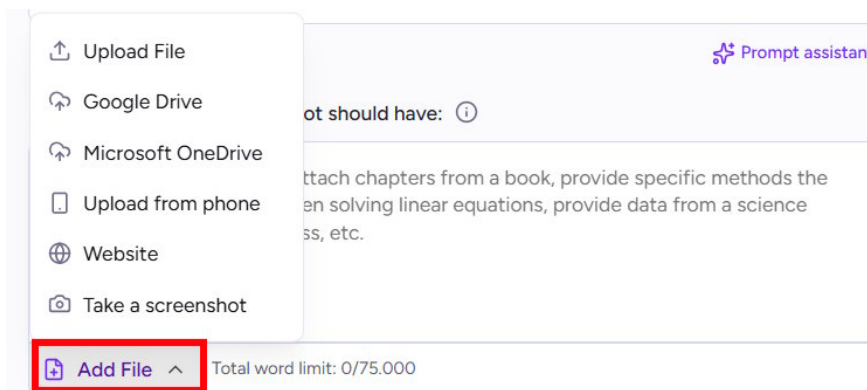

7th grade

**The Instruction section** provides **instructions on how this chatbot works** , how it responds to student questions, and how it answers them. Teachers can refer to the chatbot operation instructions below.

Ông vai trò là trợ lý giáo viên môn Lịch sử lớp 7, hãy giúp tôi trả lời các câu hỏi của học sinh liên quan tới kiến thức có trong tài liệu tôi lên, bao gồm các sự kiện, nhân vật, mốc thời gian và ý nghĩa lịch sử quan trọng. Sử dụng cách diễn đạt ngắn gọn, tránh thuật ngữ phức tạp, giúp học sinh dễ tiếp thu, kèm theo mốc thời gian, giúp tôi thích. Nếu học sinh trả lời chưa đúng hãy đưa ra gợi ý. Sau khi trả lời, chatbot có thể hỏi thêm: 'Em có muốn làm thử câu hỏi trắc nghiệm không?' 'Theo em, sự kiện này có ý nghĩa gì?'

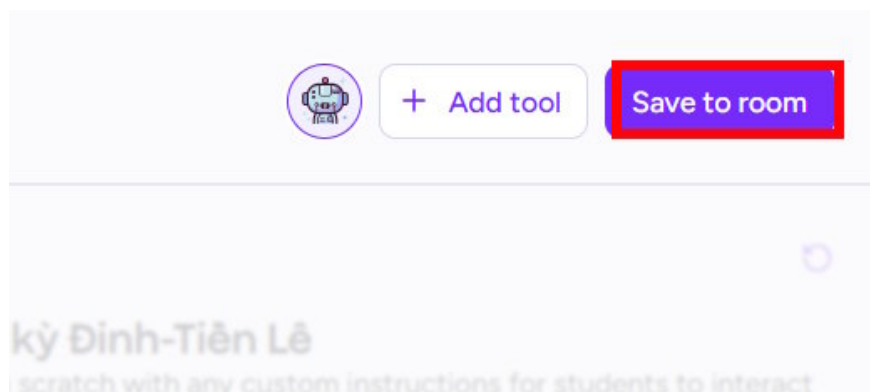

Next, **upload the data file below that students need to review** and only answer questions within that content.

### Step 3:

Click "**Save to room**" to save and **name it the same as the chatbot** , then click "**Save room**" again .

As a result, we now have **a chatbot to send students** review questions and answers about the material they have learned.

## Share MagicSchool Room

**Join URL**

Copy a link that will allow students to directly join the room.

**Google Classroom**

Create an assignment with the room information.

**Join Codes**

Share the join code with students or display a QR code.

Please be sure to comply with your local school and district policies when using AI with students. AI chatbots support student learning but may not be appropriate for every learner. Please monitor students for appropriate and effective usage.

### Step 4:

When **students access the link** , they need to **enter their name and click "Join room"** . The chatbot will then introduce itself, as shown in the image below.

### Lịch sử 7 thời kỳ Đinh-Tiên Lê

Build a chatbot from scratch with any custom instructions for students to interact with!

Xin chào em! 🍌

Tôi là trợ lý giáo viên môn Lịch sử lớp 7. Tôi sẽ giúp em hiểu rõ hơn về những sự kiện, nhân vật và mốc thời gian quan trọng trong lịch sử nước ta, đặc biệt là thời kỳ Đinh - Tiên Lê.

Em có thể hỏi tôi bất cứ câu hỏi nào liên quan đến:

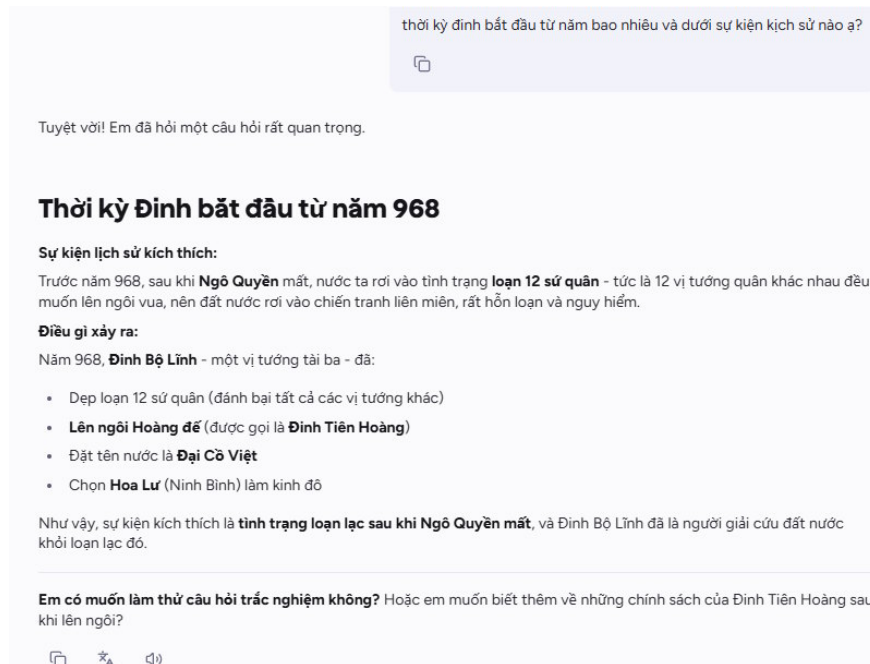

- **Đinh Bộ Lĩnh** và cách ông dẹp loạn 12 sứ quân
- **Nhà Đinh** và nhà **Tiên Lê**
- **Cuộc kháng chiến chống Tống** năm 981
- **Kinh tế, văn hóa** thời kỳ này
- Hoặc bất cứ nhân vật, sự kiện nào khác từ bài học

Tôi sẽ giải thích cho em dễ hiểu, không dùng những từ quá phức tạp. Sau khi trả lời, tôi cũng có thể hỏi thêm một số câu hỏi để em ôn lại kiến thức nhé!

Em muốn hỏi gì về bài học hôm nay? 😊

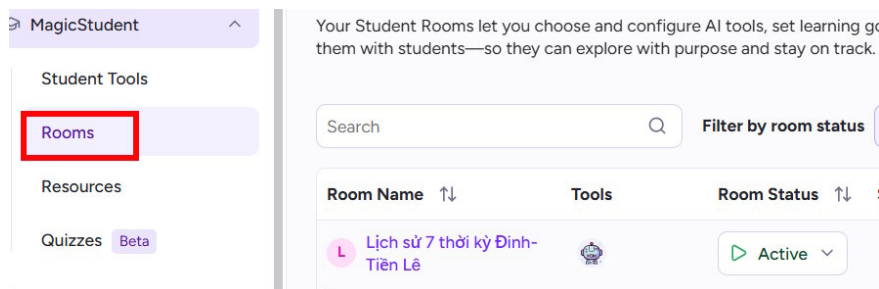

Now, students will ask for any information related to the content in this knowledge section. For example, a student might ask when the Dinh Dynasty began and what events occurred during that period. The chatbot will then respond with concise yet comprehensive information.

The chatbot will provide further content suggestions related to this knowledge.

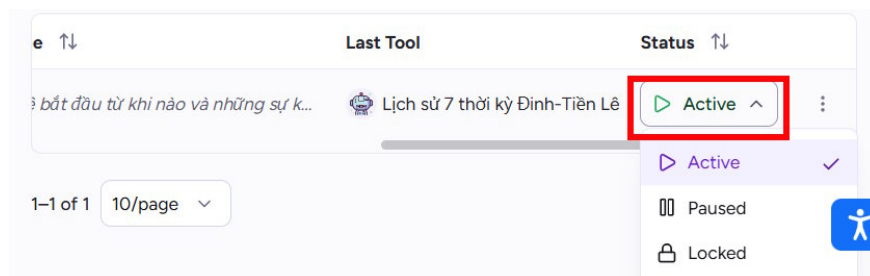

### Step 5:

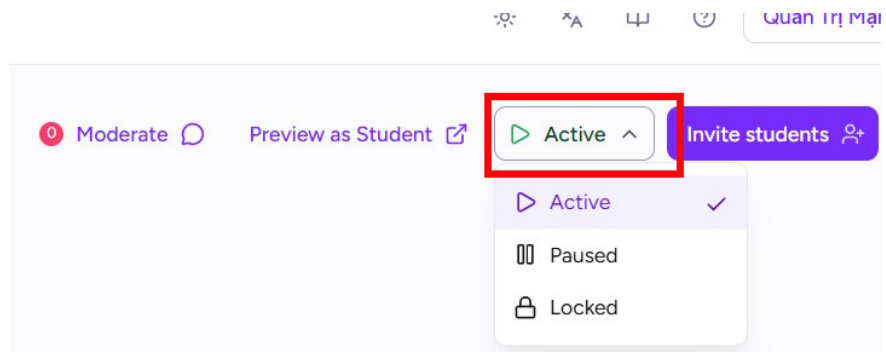

Teachers can return to **Magic School** and click on the **"Room"** section , select the chatbot name , and see the number of students using the chatbot, the number of responses, and the content of the responses sent.

In this interface, teachers can **stop the chatbot for this student by adjusting the Status setting** .

To completely **stop this chatbot** , look at the top, click the **Active button** , and then select Paused.
