

# Create animated images online using Makeagif.

With its intuitive and user-friendly interface, Makeagif.com deserves to be considered one of the best free animated GIF creation websites. Furthermore, Makeagif.com allows you to create animated GIFs from webcam videos, YouTube videos, or even videos from your computer – a feature many other websites lack.

Creating animated GIFs has never been easier. Now you can create animated GIFs anywhere on the Makeagif website. This article will guide you through the steps to create animated GIFs online, so follow along to learn how.

## Create Animated Pictures

How to create animated images using MakeAgi.

Simply go to Makeagif.com and follow these steps:

*Step 1* : Choose the source for creating the animation.

- **Add pictures** : Select photos to create an animated image.
- **Webcam to GIF** : Use your webcam to create animated GIFs.
- **YouTube to GIF** : Use a YouTube link to create an animated image.

- **Video to gift** : Use a video (25mb) on your computer to create an image.

In this tutorial, TipsMake will select "**Add pictures**". A dialog box will appear, and you simply choose the photos you want to combine into an animated image.

*Step 2* : Drag and drop the images to arrange their order, then click **Continue** to proceed.

*Step 3* : Set the parameters for the photo.

- **Animation Speed** : Choose the speed at which to switch between images.

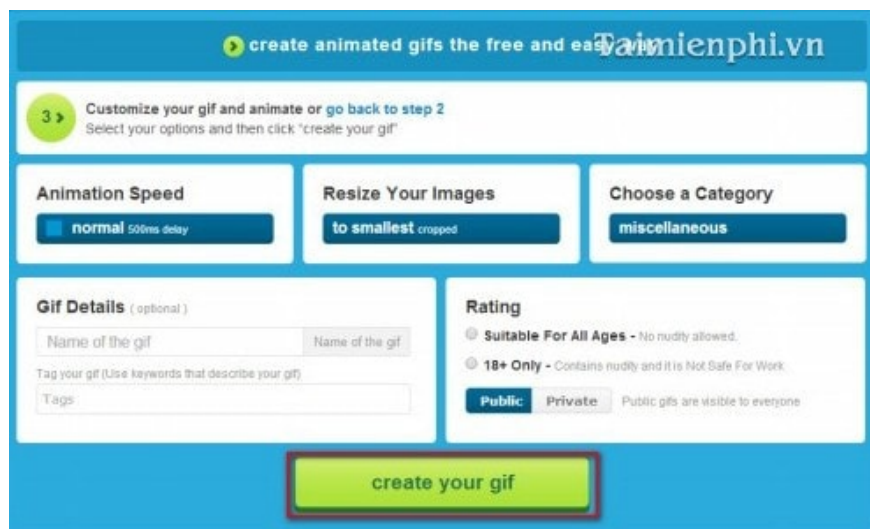

- **Resize Your Images** : Choose the image size.

- **Choose a Category** : The category for the image.

- **Rating** : + Select **Suitable For All Ages** if your image is suitable for all ages.

Choose **18+only** if your image is intended only for people over 18 years old.

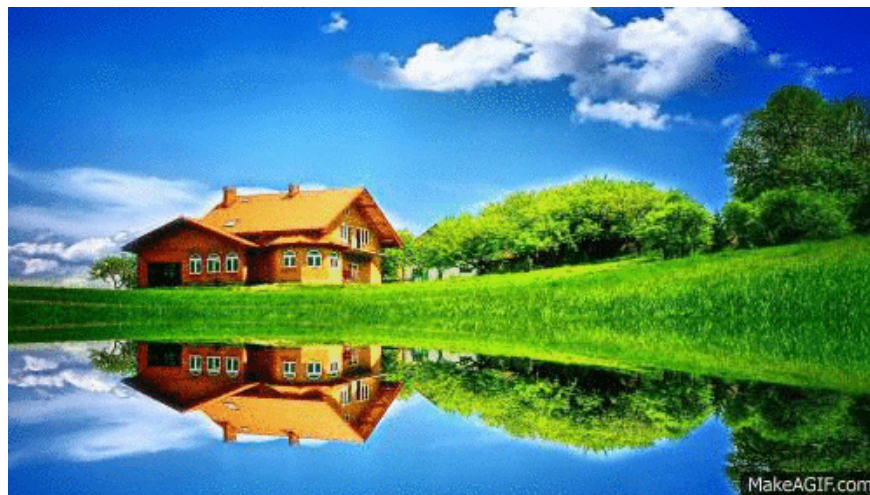

Finally, click **Create your gift** to complete the process.

*Step 4* : Save the image to your computer. **Right-click** on the image and select "**Save image as.**".

And here is the product:
