

Create infographics on Lovart extremely quickly.

Lovart is an AI-powered platform that supports creative design, including infographics illustrating any content you want.

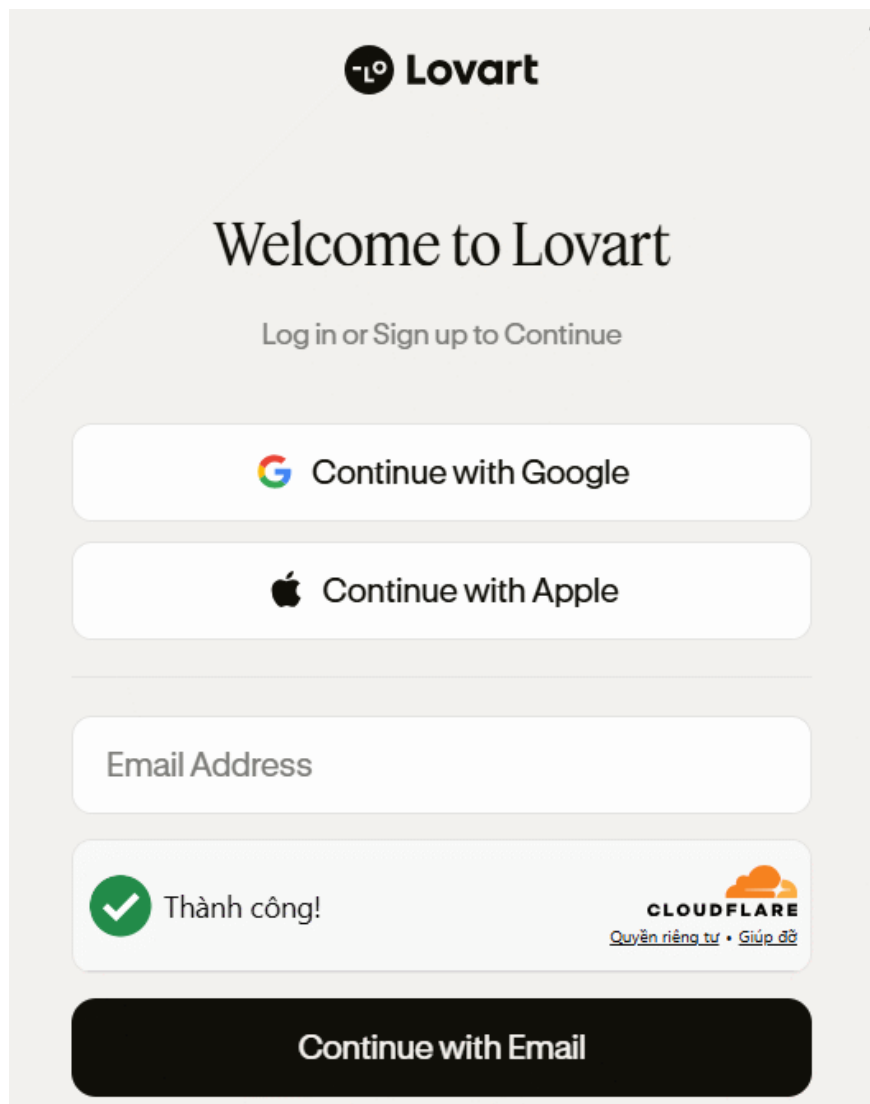

Lovart is an AI-powered platform for creative design, including infographics illustrating any content you want. You'll enter the content you want to create, and Lovart will use its AI to analyze the content and find suitable images to accompany your infographic. Below is a guide on creating infographics on Lovart.

Guide to creating infographics on Lovart

Step 1:

Access Lovart via the link below and register an account using your Google or Apple account as shown in the image.

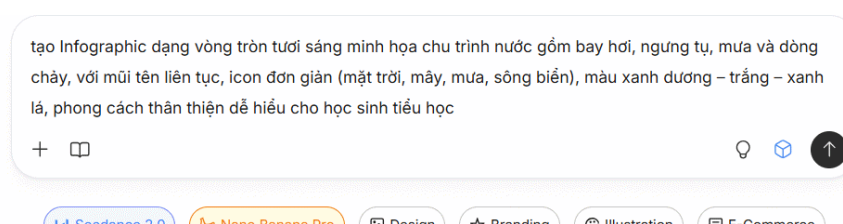

<https://www.lovart.ai/home>

Step 2:

In the main Lovart interface, you will **enter the description of the infographic** you want to create, clearly stating the topic of the infographic, the target audience, and the colors to use. You can refer to the Lovart infographic creation prompt below.

tạo Infographic tiếng Việt mô tả 5 giai đoạn phun trào núi lửa tạo hình thành magma, tích tụ trong buồng magma, áp suất tăng, phun trào dung nham, hình thành hình ảnh, với màu sắc - cam phát sáng cho dung nham, màu tên dòng chảy và nhãn rõ ràng cho hình ảnh sinh động

Step 3:

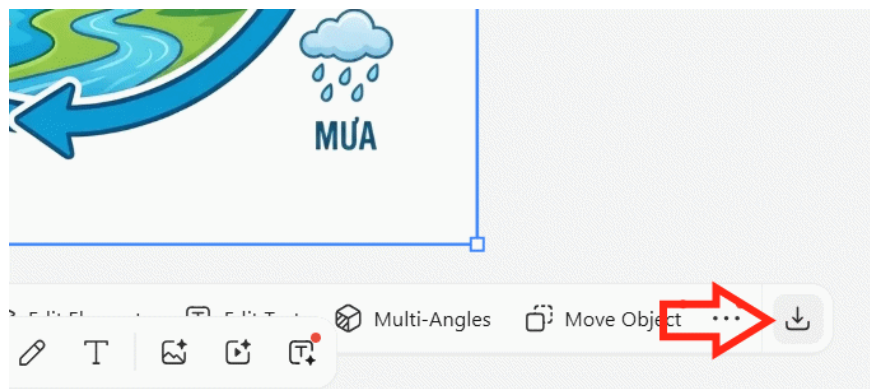

Please wait a moment while Lovart creates the infographic, and the result will look like the image below.

If Lovart encounters an error in the content of your infographic, please submit your request to have the infographic edited and wait for Lovart to create a new infographic.

Step 4:

To **download an image** , tap **on the image** and then tap **the save icon** .

Overall, Lovart creates infographics at a basic level, and you'll only be able to create two infographics with a free account.
