

# Create password to protect folders without using software

In this article, I will show you how to create a password for a directory without the need for software support.

Do you have important documents or applications, or you simply don't want someone who uses your computer to view the contents of a certain folder with you. How do you think other people won't be able to view the folder on your computer? Looking for software? Currently there are many software to help you with this. But in this article, I will show you how to create a password for the directory without the need for software.

**Step 1:** Open the folder to create a password protection, right-click and select **New -> Text Document** .

**Step 2:** Open the text file just created and enter the following code ( **PASSWORD:** you can change it to the password you want to set.

cls

@ECHO OFF

Private Folder title

if EXIST "Thuthuatphanmem Locker" goto UNLOCK

if NOT EXIST Private goto MDLOCKER

: CONFIRM

echo Are you sure you want to lock the folder (Y / N)

set / p "for =>"

if% for% == Y goto LOCK

if% for% == y goto LOCK

if% for% == n goto END

if% for% == N goto END

echo Invalid choice.

goto CONFIRM: LOCK

ren Private "Thuthuatphanmem Locker"

attrib + h + s "Thuthuatphanmem Locker"

echo Folder locked

goto End

: UNLOCK

echo Enter password to unlock folder

set / p "pass =>"

if NOT% pass% == **PASSWORD** goto FAIL

attrib -h -s "Thuthuatphanmem Locker"

ren "Thuthuatphanmem Locker" Private

echo Folder Unlocked successfully

goto End

: FAIL echo Invalid password

```
goto end
: MDLOCKER
md Private
echo Private created successfully
goto End
: End
```

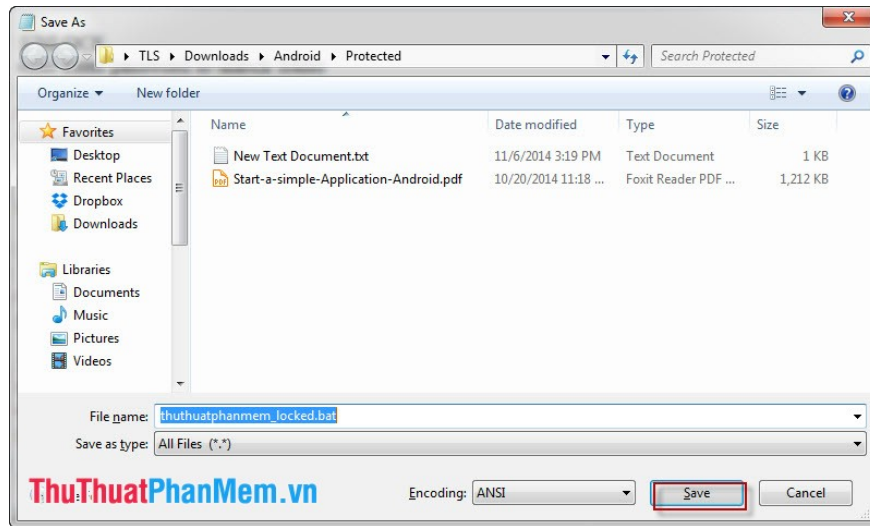

```
cls
@ECHO OFF
title Folder Private
if EXIST "Thuthuatphanmem Locker" goto UNLOCK
if NOT EXIST Private goto MDLOCKER
:CONFIRM
echo Are you sure you want to lock the folder(Y/N)
set/p "cho=>"
if %cho%==Y goto LOCK
if %cho%==y goto LOCK
if %cho%==n goto END
if %cho%==N goto END
echo Invalid choice.
goto CONFIRM :LOCK
ren Private "Thuthuatphanmem Locker"
attrib +h +s "Thuthuatphanmem Locker"
echo Folder locked
goto End
:UNLOCK
echo Enter password to unlock folder
set/p "pass=>"
if NOT %pass%== PASSWORD goto FAIL
attrib -h -s "Thuthuatphanmem Locker"
ren "Thuthuatphanmem Locker" Private
echo Folder Unlocked successfully
goto End
:FAIL echo Invalid password
goto end
:MDLOCKER
md Private
echo Private created successfully
goto End
:End
```
