There are four ways to deal damage in Blox Fruit. It can be done by fighting style, sword, gun or Fruit. There are a total of 33 fruits as of today in the game and they are divided into 3 main categories.

Devil Fruit of the Natural System

This is considered the strongest Devil Fruit in the game's 3 systems, especially it is immune to damage with other Devil Fruits. Only Devil Fruits of the same Nature type can damage each other.

Or when the player strengthens the gun, sword, and fighting style with full-body Haki that **can deal damage to the elemental user. Currently there are 10 natural fruits, including Smoke (Smoke), Flame (Fire), Ice (Ice), Sand (Sand) Dark (Darkness), Light (Light), Magma (Lava), Rumble (Lightning), Blizzard (Snow), Dough (Powder)** . In particular, the **Light, Lava, Fire, and Lightning** fruit are currently the best natural devil fruits in Blox Fruit.

Almost any natural devil fruit can do good damage in the First Sea. You should try getting Light, Lava or Fire or even Ice as it can stun the opponent. Natural Fruit is not recommended to be used in the 2nd and 3rd seas because of its high ability to deal with elemental fruits and most NPCs have Haki.

Super Strength Devil Fruit

There are currently 20 super power-type Devil Fruits, what makes these fruits unique from others is that they allow the user to control the forces of nature. Since this is the category with the largest number of fruits, there are many different types of fruit and there is a lot to talk about.

1. Kilo (Weight Gain)
2. Spin (Spin)
3. Chop (Chop)
4. Spring (Spring)
5. Bomb (Bomb)
6. Spike (Spike)
7. Revive (Turns into a Soul)

The Super Strength Fruit is a versatile fruit that you can use together for both close and long range. They are quite suitable for PVP matches with the ability to deal great damage. The most commonly used fruits are **Soul, Poison, Gravity, Control**.

Because the number of fruits is large and diverse, if you have money, you will have a lot of options. Here are some suggestions for super power fruits.

1. Boss Bobby's Chop Fruit can negate sword attacks regardless of haki or not. So if you want to deal effective damage with this Chop fruit, you can use other ways like guns, fighting styles or other Devil Fruits.
2. The Spider's X and the Paw's Z,X have the longest attack range of any Blox fruit.
3. Also Spider and Quake are the only two super power fruits with v2.
4. Portal has the best mobility in the game, very suitable for players using swords or guns.
5. Currently the super power fruit is the fruit with the most changed/reworked Devil Fruits in the game with a total of 12 remakes.

Beast/God type Devil Fruit

There are currently only 5 types of Beast/God fruit in the game, including Falcon fruit, Buddha fruit, Dragon, Phoenix and Leopard fruit. This fruit gives the player the ability to change shape into a monster/animal-like creature. On September 10, 2022, the newest Leopard Fruit was added to the game. It is considered the most expensive and strongest Beast fruit of the Roblox Blox fruits. In addition, Dragon, Phoenix and Buddha fruits are also the best choices in this fruit.

Most of the Monster fruits are really useful in raids and in PvP, as almost all beast fruits are very useful. The Dragon Fruit has a transformation that powers attacks that hit most enemies within its damage range.

Buddha has a large set of melee moves and can be solo almost in any raid with the right build and the right stats. Phoenix has a healing ability that can be extremely useful in skirmishes.

Some tips about the fruit

1. Although the Poison and Rubber fruits can change shape, they are still considered super-powerful fruits.
2. All Devil Fruits have a transformation
3. There are only 2 types of Fruit that Beast can awaken, that is Phoenix and Buddha fruit.
4. Falcon is currently the cheapest and least rare beast in the game.
5. Spiders are not evil fruits. Although it has changed its name, but its type has not changed, it is still a Super Strength fruit.

Some things to know about Devil Fruit in Blox Fruit

1. Fruits in the Second Sea or Third Sea can be exchanged for certain items, events, or quests.
2. If you buy fruit with in-game currency from the Blox Fruit Agent NPC, it will replace the currently equipped Devil Fruit. If the player takes the fruit that has been hoarded and someone kills them they will lose the fruit, but your enemies will not get the fruit.
3. Some Devil Fruits like Ice and Magma v2 allow the player to walk on water. This does not mean that they do not take damage from seawater, such as being pushed away underwater.
4. The V2 Buddha Fruit Transformation is large enough to not be completely submerged underwater, negating too much damage from the sea, unless also pushed underwater.

5. Various Devil Fruits have a "F" movement that deals damage, such as Rumble, Venom, Shadow, Smoke, Blizzard, Dough V2, Magma, Leopard, Phoenix V2, Portal, Bomb, Rubber and Buddha V2.
6. After you hoard a fruit, you cannot drop it.
7. Fruits purchased with Robux are permanent and can be eaten from the Blox Fruits Dealer or Menu at any time, while Fruits purchased with in-game currency are not permanent.
8. You can remove your Devil Fruit by going to the Remove Blox Fruit NPC found in the Prison in the First Sea and the Sea Castle in the Third Sea, although this is not recommended.
9. Permanent fruit can be traded as an in-game ticket. To do so, the player must select the "Store in Inventory" option under the "Gift" tab.
10. Mastery of a fruit will remain consistent regardless of whether or not the fruit is replaced. The same goes for its awakening moves, which can be changed by the NPC Awakenings Expert.
11. Players cannot trade permanent fruit or used game cards, like fruit in use.
12. The Sand Fruit will take double damage if submerged in water.
13. Smoke and Snowstorm are the only two elemental fruits that do not have Awakening.
14. Dough is a mythical fruit
15. Becoming a member of the mermaids will help reduce damage while underwater.
