

Delete Viber messages on the computer

Because when you use Viber on your computer you cannot log out as usual, so your personal information and chat history are very easily noticed by curious eyes. Therefore, we will guide you how to delete traces on Viber in the following article.

If you use **Viber** regularly to chat, make free calls or exchange jobs, Viber will save the entire message history by default so you can easily find information when you need it, but it will also cause a lot of problems. trouble for you.

Because when you use Viber on your computer you cannot log out as usual so your personal information and chat history are easily noticed by "curious" eyes. Therefore, we will guide you how to delete "traces" on Viber in the following article.

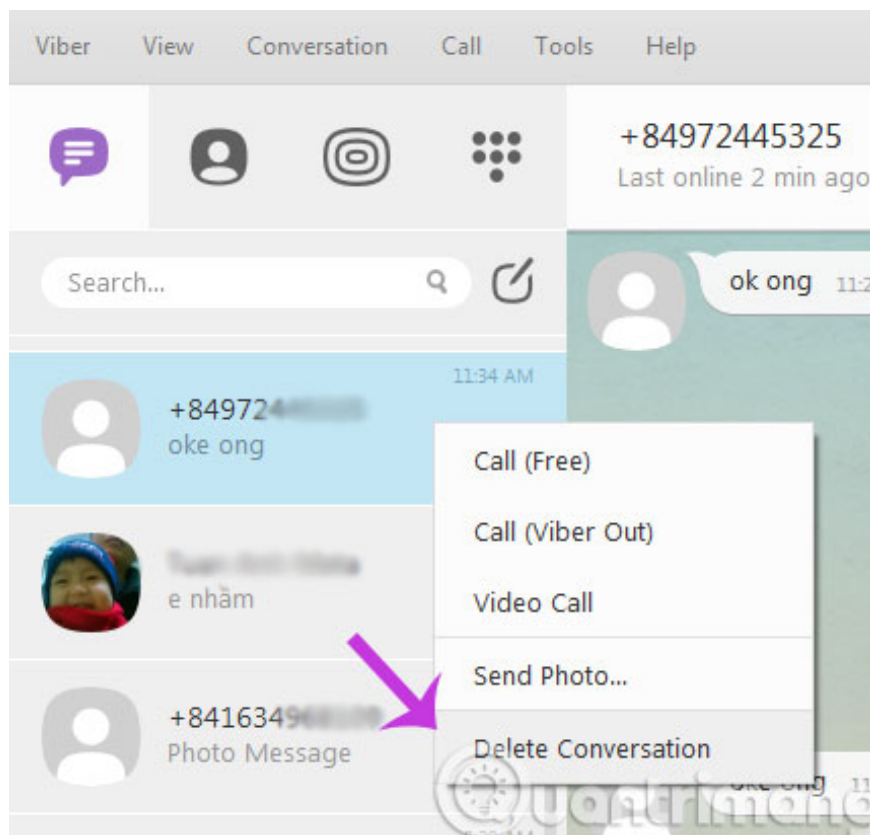

Method 1 : Go to the name of the person who needs to delete the message, then click the **Conversation** menu, select **Delete Conversation** .

Soon the Delete Conversation message box appears asking if you really want to delete it? Please click the **Delete** button to delete.

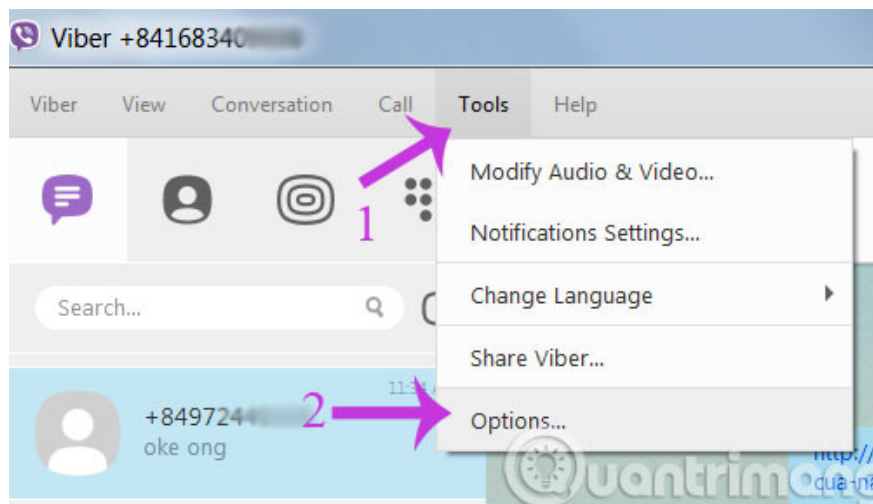

Method 2 : Simpler, you just need to right-click on the name of the person you want to delete and select **Delete Conversation** , then also a message box asking if you are sure to delete or not, the same operation as method 1 is all Chat history with that person will be completely deleted from your computer.

If you want to turn off the chat history saving feature, do the following

At the main interface of the program, click on the **Tools** menu and select **Options** .

At the **Basics** tab, you uncheck the box **Save messages history when exiting a conversation** . Then click the **OK** button to close the window.
