

Dell Adamo lowered the price of more than 1,000 USD

Dell Adamo has reduced the price from the start of \$ 1,999 over a year ago to \$ 899 with the same powerful configuration before.

Dell Adamo has reduced the price from the start of \$ 1,999 over a year ago to \$ 899 with the same powerful configuration before.

Nearly a year and a half after the official launch of an ultra-thin laptop to compete with MacBook Air, Dell brought good news to users when officially offering this ultra-thin model.

- Blazing-fast Intel® Core™ 2 Duo processor that works in concert with double data rate 3 (DDR3) memory to deliver outstanding performance
- Super-thin, 13.4-inch 16:9 (high definition, 720p) white LED (WLED) display
- Full-size keyboard with backlighting and scalloped, metallic key cap design
- Advanced lithium polymer technology that invites you to enjoy more than five hours of battery life³ on a full charge

Adamo starting price is only 899 USD.

With only 899 USD, now users can own a Dell Adamo with only 1.65 cm thin, WLED screen size of 13.4 inch resolution of 1366 x 768 pixels. The configuration for the starting price is also quite good with the Core 2 Duo SL9600 processor clocked at 2.1 GHz, 4GB DDR3 RAM, 128GB SSD, Wi-Fi standard and and Bluetooth 2.1 + EDR.

It will be equipped with a Lithium Polymer 40 WHR battery and Windows 7 Home Premium 64-bit operating system pre-installed.

Dell Adamo was first launched in April 2009 with a thickness of only 1.65 cm, 0.25 cm thinner than the thickest place on the MacBook Air body. At the time of launch, the Adamo has prices starting from \$ 1,999 and returning to Vietnam for more than \$ 3,000.
