

Dell has two models of multi-touch screen laptops

Dell is preparing to launch two new models of the Precision M4600 and M6600 laptops equipped with new multi-touch screen technology.

On April 26, Dell said it was preparing to launch two new notebooks called the Precision M4600 and M6600 with remarkable configuration parameters.

Dell's new Precision M4600 laptop model.

While the **M4600** owns a 15.6-inch screen with a price of \$ 1,678, the **M6600** is equipped with a 17.3-inch screen and is priced at \$ 2,158.

These screens have new multi-touch technology, allowing users to manipulate four fingers at once.

Both new models are equipped with 2nd generation Intel® Core™ i7 processor M4600 owns up to 32GB of RAM, 750GB HDD, and M6600 can use two HDD and a 128GB SSD hard drive, in addition to this older model, has an NVIDIA Quadro 5010M 4GBM graphics processor.

The laptops also have five USB ports, of which two USB 3.0 ports, two USB 2.0 ports and a multi-purpose USB port that is compatible with the eSATA standard.
