Dell Inspiron N4010 / GCTD52 .

**Dell Inspiron N4010 / GCTD52** (aka 14R / GCTD52) is equipped with Intel® Core™ i5-520M processor (2 \* 2.40GHz Turbo Boost 2.93GHz, 4Threads, 3MB L3 cache), 4GB DDR3 RAM, drive 500GB hard . With the above configuration, the machine can handle multiple tasks smoothly, running at the same time many applications for work and entertainment.

14.1-inch widescreen monitor with a resolution of 1366 x 768 pixels, supported by ATI® Mobility RADEON™ HD 5470 (Dedicated) graphics card 1GB provides very good visibility. Especially, with built-in HDMI port, users can easily enjoy high-quality HD movies.

On the outside, the **Inspiron N4010 / GCTD52** makes it easy for users to have a glossy, metallic plastic finish with a metallic pattern. The design of the device is somewhat in the style of the **Dell Adamo** "super product", with the screen hinge backing inward, causing the rear edge of the device to protrude a bit, creating a rather unique appearance when opening the device.

The keyboard of the **Inspiron N4010 / GCTD52** is designed with the right type of traditional Dell keyboard, with wide keys, close to each other and with moderate bounce, making it easy and comfortable to operate. A detail that makes users feel like the keyboard of the machine when compared to other laptops is that the **Ctrl** key remains in the bottom left position like in the traditional keyboard, not the **Fn** key. That brings great convenience to those who regularly use keyboard shortcuts when editing documents, especially those who are used to using the desktop.

**The touchpad** of the device is designed wide, rough surface helps users manipulate easily and accurately. Two mouse buttons have a large size, moderate bouncing, bringing a pleasant feeling when hovering on the computer. **Dell Inspiron N4010 / GCTD52** is equipped with 1.3 megapixel resolution webcam, supports users to video chat or make remote meetings.

The speaker system of the **Inspiron N4010 / GCTD52** is located under the chassis, giving a loud and clear volume. Bass and treble sound are fully reproduced, but if you want to feel the most accurate sound quality that

**SRS Premium Sound** technology brings, you should wear headphones.

Through testing, the battery of the device can operate continuously for more than 4 hours.

Left edge with Ethernet port, radiator door, HDMI port, eSATA / USB port and card reader.

Rear is VGA port and machine lock.

The right side is the location of the DVD drive, microphone jack, headphone and a USB port.

The right rear is a USB port and a charging jack.

Currently, **Dell Inspiron N4010 / GCTD52** is on the market for over VND18 million, for more details and to order products you can contact:
