

## Dell launched a special laptop for gamers

Dell has just launched the XPS M1730 laptop and it quickly became the dream of many veteran World of Warcraft players.

**Dell has just launched the XPS M1730 laptop and it quickly became the dream of many veteran World of Warcraft players.**

With the configuration of Intel Extreme Edition Core 2 Duo processor reaching 3.4-GHz speed and 17-inch LCD screen supported by Nvidia SLI graphics card, XPS deserves to be a dedicated laptop for gamers.

In addition to the professionalism of the game disciples, the surface of the laptop cover is also depicted with the Alliance badge or the Horde (Warcraft). In parallel with the traditional touchpad keyboard and mouse structure, Logitech's dedicated game console panel, Blu-ray DVD drive.

In particular, laptops with pre-installed games WoW and Burning Crusade with wallpapers or screensavers carry images of this game set. The machine has a reference price of \$ 4,499.
