

Dell Mini 12 has arrived in Vietnam

Dell's personal computer company has officially introduced to Vietnam market the Inspiron Mini 12 12-inch netbook, with compact design and retail price of more than 600 USD.

Dell's personal computer company has officially introduced to Vietnam market the Inspiron Mini 12 12-inch netbook, with compact design and retail price of more than 600 USD.

The Dell Inspiron Mini 12 is the first netbook equipped with a 12-inch screen.

With a slim body of only 28 mm and weighing 1.24 kg, the Dell Inspiron Mini 12 easily fits into a handbag or backpack. However, the Mini 12 overcomes the disadvantages of previous netbooks, with a super bright 12.1-inch widescreen display, full-size keyboard and hard drive with storage capacity of up to 40 GB.

Dell Inspiron Mini 12 also incorporates advanced connections like Wi-Fi, Bluetooth and 10/100 LAN. Along with that is a 1.3 Megapixel webcam with a 3-in-1 memory card reader.

The Dell Inspiron Mini 12 interface is rated easy to use, lively and adjustable. It allows users to put favorite applications on top and group similar applications and website links together for convenience of searching.

The most attractive feature of this netbook is that its 3-cell battery can be operated continuously for more than 3 hours. The retail price of Dell Inspiron Mini 12 in Vietnam is 609 USD.
