Quick selection tips

Before starting to play Demon Slayer: Kimetsu no Yaiba - The Hinokami Chronicles, there are several choices that gamers should change. If the player intends to play the game in English, change the subtitles to the minimum size. This will ensure that no text gets in the way of cutscenes or battles.

Driver instructions should also be turned off. Removing both of these options will make the game more immersive in battle instead of cluttering the HUD with unnecessary elements. This will help players fully immerse themselves in Demon Slayer: Kimetsu no Yaiba because of its realism compared to the anime.

Play the campaign first

At first there were only a handful of combat characters available. The rest will be unlocked in the story campaign. This can feel like a waste of time for gamers who want to buy games to play with friends.

However, it won't take more than 3-4 hours to complete the story. Players can focus on unlocking the characters and come back later so that Don't worry about revisiting the game's content or storylines.

In-game difficulty

Once familiar and comfortable with the game's controls, gamers should choose the hardest level when fighting the CPU. Doing this will help people better understand the skirmish in preparation for tournament battles with real people.

The anime campaign has no difficulty option for the main episodes. The good side of this is that there is no way to die. If destroyed in battle, the player can be revived on the spot.

The final score will be lowered but that has no effect on character unlocking. This makes the campaign accessible in the most challenging conditions.

Study the map

If you want to immerse yourself in each content of Demon Slayer: Kimetsu no Yaiba - The Hinokami Chronicles, it is important for gamers to study the map.

The player can see the blue exclamation points on the map.

There are also episodes to unlock and many locations to help collect points, helping to unlock content in the rewards menu.

Studying the map can help players reduce the situation of having to go back and forth to locations too much. Sometimes people can't know the best route to take on the map because it can be covered with fog but research is never in vain.
