

# Design, configuration and price of Vingroup Vsmart Star smartphone

After two Vsmart Bee and Vsmart Live, Vsmart recently launched its third smartphone towards the low-price segment called Vsmart Star.

After two Vsmart Bee and Vsmart Live, Vsmart recently launched its third smartphone towards the low-price segment called Vsmart Star.

Vsmart Star's screen is 5.7 inches, has HD + resolution (720 x 1520 pixels) and has "water droplets". The "chin" of the device is quite large, but because this is a cheap smartphone, users can accept this point.

Vsmart Star is equipped with Qualcomm's Snapdragon 215 processor that supports 64-bit, and is 50% faster than the Snapdragon 212. It has 2GB RAM, 16GB internal memory, 3000mAh battery and 10W fast charging. allows you to listen to music continuously for 96 hours and make 18-hour phone calls.

The case of the device is made entirely of plastic but the back of the device has a very eye-catching and youthful design.

Vsmart Star owns 2 rear cameras, including an 8MP camera (f / 2.0) and a 2MP camera (f / 2.4), capable of measuring the depth of field to support font removal.

Vsmart Star comes pre-installed with Android 9 Pie operating system with VOS 2.0 interface.

Expected, Vsmart Star will be sold for \$ 1.99 million, guaranteed for 18 months.

The device has 3 colors for users to choose from black, blue, orange.

1. Realme XT officially launched: The first smartphone has a 64MP camera with 4 rear cameras
2. Meizu 16s Pro launch: Snapdragon 855+, 3 main cameras, priced from 8.7 million
